## **Soul Beneath The Skin:**

*The Soul Beneath the Skin* David Nimmons, 2002-05-28 This surprising and thought provoking book begins with the obvious fact that Stonewall happened 30 years ago and the perhaps less obvious fact that in the 30 years since an enormous number of social science studies have been done on gay men Dave Nimmons proceeds to synthesize that information to reveal a number of unseen patterns of gay male behavior truths about our lives we feel instinctively but have not named For instance countless studies show that gay men have developed a culture in which public violence is almost non existent which is notable when you consider that violence in this society is almost entirely a male phenomenon Even in intensely over crowded gay bars and discos with alcohol and testosterone saturating the atmosphere fist fights are virtually unheard of On in the area of volunteerism study after study shows that gay men volunteer at a much higher level than any other segment of the population and very interestingly our volunteerism is about evenly divided between gay and non gay causes as are our charitable contributions Our patterns of intimacy and friendship are much more diffuse and extended than heterosexual patterns sexual jealousy and exclusiveness are extremely different as are our relationships with women and our pursuit of playfulness and sexual bliss Altogether these gay social innovations have no parallel in modern American culture they describe a new kind of public ethics one with deep implications for gay men and for the larger society

### **Form and Instability**

Anita Starosta, 2015-12-31 Form and Instability Eastern Europe Literature and Post Imperial Difference busies itself with the work of accounting for this discrepancy between ostensible historical change and the persistence of anachronistic ways of thinking a discrepancy that remains unaddressed and eludes attention and it goes on to propose that literature not simply as an archive of representations or a source of cultural capital but as a critical perspective in its own right offers a way to apprehend and to redress this problem Historical situations such as the post 1989 transitions to capitalism and liberal democracy as well as the Eastern enlargement of the E U not only entail

empirical change they also call for and provoke intense renegotiations of cultural values and analytical concepts Through rhetoric reading and translation terms central to this book literature will be seen to expedite and redirect such re arrangements It will be shown to destabilize discursively fixed categories without imposing in turn its own fixity Located at the intersection of comparative literature area studies and literary theory this interdisciplinary study has a twofold commitment to Eastern Europe on the one hand and to literature on the other It aims to intervene in the way we conceive of Eastern Europe by seeking to develop a more equitable way of thinking one that avoids subordinating it to Eurocentric narratives of progress At the same time it marshals literature as both object and method of this rethinking in order to extend existing conceptions of the usefulness and of the proper organization of literary studies The three terms in the title of this book mark a passage via literature from Eastern Europe as an inadequate and obsolescent category to post imperial difference as a more accurate if provisional account of the region By way of original readings of particular texts and by attending to literature as a critical

*Life After Death* Angela Roquet, 2021-12-21 Lana Harvey is back from the dead Well back from delivering the dead to the afterlives anyway The political and social landscape of Limbo City has gone through quite the makeover since the Throne of Eternity was broken and the souls in the sea took charge of their own destinies But progress is a journey on the road less traveled Which means potholes are inevitable And who better to pave the way than the reaper who set all this upheaval into motion Return to Limbo City with Lana and the gang They ll have a cold ale waiting for you at Purgatory Lounge New to the Lanaverse If you love urban fantasy steeped in mythology dark humor gritty action and paranormal romance start at the very beginning with book one from the original Lana Harvey Reapers Inc series Graveyard Shift today

All Men and Both Sexes Hilda L. Smith, 2010-11 All Men and Both Sexes explores the use of such universal terms as people man or human in early modern England from the civil war through the Enlightenment Such language falsely implies inclusion of both men and women when actually it excludes women Recent scholarship has focused on the Rights of Man doctrine from the Enlightenment and the French Revolution as explanation for women s exclusion from citizenship According to Hilda Smith we need to go back further to the English Revolution and the more grounded but equally restricted values tied to the free born Englishman Citing educational treatises advice literature to young people guild records popular periodicals and parliamentary debates she demonstrates how the male maturation process came to define the qualities attached to citizenship and responsible adulthood which in turn became the basis for modern individualism and liberalism By the eighteenth century a new discourse of sensibility was describing women as dependent beings outside the state in a separate sphere and in need of protection This excluded women from reform debates forcing them to seek not an extension of a democratic franchise but a specific women s suffrage focused on gender difference
