Old Souls Thomas Shroder, 2011-05-17 A riveting firsthand account of one man's mission to investigate and document some of the most astonishing phenomena of our time children who speak of past life memory and reincarnation All across the globe small children spontaneously speak of previous lives beg to be taken home pine for mothers and husbands and mistresses from another life and know things that there seems to be no normal way for them to know From the moment these children can talk they speak of people and events from the past not vague stories of centuries ago but details of specific identifiable individuals who may have died just months weeks or even hours before the birth of the child in question For thirty seven years Dr Ian Stevenson has traveled the world from Lebanon to suburban Virginia investigating and

documenting more than two thousand of these past life memory cases Now his essentially unknown work is being brought to the mainstream by Tom Shroder the first journalist to have the privilege of accompanying Dr Stevenson in his fieldwork Shroder follows Stevenson into the lives of children and families touched by this phenomenon changing from skeptic to believer as he comes face to face with concrete evidence he cannot discount in this spellbinding and true story **Virtually Human** Martine Rothblatt,2014-09-09 Virtually Human explores what the not too distant future will look like when cyberconsciousness simulation of the human brain via software and computer technology allows our consciousness to be present forever Meet Bina48 the world s most sentient robot commissioned by Martine Rothblatt and created by Hanson Robotics Bina48 is a nascent Mindclone of Martine s wife that can engage in conversation answer questions and even have spontaneous thoughts that are derived from multimedia data in a Mindfile created by the real Bina If you re active on Twitter or Facebook share photos through Instagram or blogging regularly you re already on your way to creating a Mindfile a digital database of your thoughts memories feelings and opinions that is essentially a back up copy of your mind Soon this Mindfile can be made conscious with special software Mindware that mimics the way human brains organize information create emotions and achieve self awareness This may sound like science fiction A I artificial intelligence but the nascent technology already exists Thousands of software engineers across the globe are working to create cyberconsciousness based on human consciousness and the Obama administration recently announced plans to invest in a decade long Brain Activity Map project Virtually Human is the only book to examine the ethical issues relating to cyberconsciousness and Rothblatt with a Ph D in medical ethics is uniquely qualified to lead the dialogue **My Revision Notes: AQA A2 Religious Studies: Religion and Ethics and Philosophy of Religion** Richard Gray,Peter Cole,2013-04-26 Unlock your full potential with this revision guide which provides both the key content you need to know and guidance on how to apply it for better grades My Revision Notes AQA A2 Religious Studies Religion and Ethics and Philosophy of Religion helps you to stay motivated and focused during your revision and gives you the opportunity to practise and refine your skills to achieve the best grade in your exam Breaks down all topics into short sections easy to read and revise from Exam style practice questions help confidence with the exam Issues arising section specifically helps prepare for AQA AS RS AO2 questions Concise notes clear layout and colourful features keep you engaged You can check your learning with the test yourself questions and tick box design **Media in Ireland** Damien Kiberd,1999 The papers in this volume were delivered at the 7th Cleraun Media Conference held in Dublin on 21 22 February 1998 P 105 *An Uncommon Bond* Jeff Brown,2015-05 In this higher consciousness love story author Jeff Brown introduces the concept of uncommon bonds through the profound connection between Sarah and Lowen two soul mates who have found their way to one another yet again In this remarkably engaging story we walk beside the lovers as they touch the divine and then struggle to ground their love in daily life From the heights of sacred sexuality to the depths of human foible they ultimately have to choose die to this love or shrink back to mediocrity open to the next portal of possibility or postpone it

until the next lifetime Shaped and reshaped in love s cosmic kiln Sarah and Lowen become a symbol of our own longing for wholeness in the presence of another This book is not a regular love story It is not like anything written before It is more of a sacred text one that people will turn to for years to contemplate discuss and understand the ecstasies and challenges of love In a world that yearns for deep soul connection An Uncommon Bond provides a blueprint of possibility for all of us reminding us of the luminous nature of great love and showing us the opportunities for expansion that live at its heart The path of the beloved is no easy walk but the fruits of our labor are ripe with blessings
