Soul Of The Embryo Christianity And The Human Embryo:

Soul of the Embryo David Albert Jones, 2004-12-23 Contemporary ethical debates about the status of the human embryo involve not only philosophical concerns but specifically religious arguments This is a systematic work on the history of Christian reflection on the human embryo

Soul of the Embryo David Albert Jones, 2004-12-01 We are delighted to announce that this book has been short listed for the prestigious Michael Ramsey prize for the best in theological writing For more information please visit www.michaelramseyprize.org.uk A radical examination of the Christian tradition relating to the human embryo and how this relates to the debate today In recent years the moral status of the human embryo has come to the fore as a vital issue for a range of contemporary ethical debates concerning the over production freezing and discarding of embryos in IVF concerning the use of spare embryos for scientific experimentation and finally concerning the prospect of producing clone embryos These debates have involved not only general philosophical arguments but also specifically religious arguments Many participants have attempted to find precedent from the Christian tradition for the positions they wish to defend It is therefore extraordinary that until *The Soul of the Embryo* there has been no significant work on the history of Christian reflection on the human embryo Here David Albert Jones seeks to tell the story of this unfolding tradition a story that encompasses many different medical moral philosophical and theological themes He starts by examining the understanding of the embryo in the Hebrew Scriptures then moves through early Christianity and the Middle Ages to the Reformation and beyond Finally Albert Jones considers the application of this developed tradition to contemporary situation and questions which contemporary Christian view or views are best regarded as authentic developments of the tradition and which should be regarded as alien to the tradition

Authority, Gender, and Midwifery in Early Modern Italy Jennifer F. Kosmin, 2020-08-31 *Authority Gender and Midwifery in Early Modern Italy* *Contested Deliveries* explores attempts by church state and medical authorities to regulate and professionalize the practice of midwifery in Italy from the late sixteenth to the late eighteenth century Medical writers in this period devoted countless pages to investigating the secrets of women s sexuality and the processes of generation By the eighteenth century male practitioners in Britain and France were even successfully advancing careers as male midwives Yet female midwives continued to manage the vast majority of all early modern births An examination of developments in Italy where male practitioners never made successful inroads into childbirth brings into focus the complex social religious and political contexts that shaped the management of reproduction in early modern Europe *Authority Gender and Midwifery in Early Modern Italy* argues that new institutional spaces to care for pregnant women and educate midwives in Italy during the eighteenth century were not strictly medical developments but rather socio political responses both to long standing concerns about honor shame and illegitimacy and contemporary unease about population growth and productivity In so doing this book complicates our understanding of such sites situating them within a longer genealogy of institutional spaces in Italy aimed at regulating sexual morality and protecting female honor It

Kamitsuka,2019-10-29 Abortion remains the most contested political issue in American life Poll results have remained surprisingly constant over the years with roughly equal numbers supporting and opposing it A common perception is that abortion is contrary to Christian teaching and values While some have challenged that perception few have attempted a comprehensive critique and constructive counterargument on Christian ethical and theological grounds Margaret Kamitsuka begins with a careful examination of the church's biblical and historical record refuting the assumption that Christianity has always condemned abortion or that it considered personhood as beginning at the moment of conception She then offers carefully crafted ethical arguments about the pregnant woman's authority to make reproductive decisions and builds a theological rationale for seeing abortion as something other than a sin **An**

Introduction to Peter van Mastricht on Christ's Human Nature as Non-Personal, the Time of Ensoulment in the Womb & the Perpetual Virginity of Mary Travis Fentiman,2025-06-14 It is exciting to read the seventeenth century reformed Dutch theologian Peter van Mastricht's Theoretical Practical Theology RHB the best systematic theology existent in English Volume 4 is on Christ's Person filled with wonderful material Three topics in the volume however may occasion some head scratching 1 His extended treatment of Christ's human nature as being impersonal 2 That human life and the soul only start at around 42 days after conception and so it was with Christ's personal union of his natures in the Incarnation and 3 That Mary probably remained a perpetual virgin throughout her life This readable but scholarly article introduces and contextualizes these issues and shows 1 Mastricht's view on Christ's impersonal human nature was largely representative of Reformed Orthodoxy and is right 2 The coherency and plausibility of life starting at around 42 days after conception philosophically and Scripturally as was the common view of Mastricht's era and it 3 Documents that Mary's de facto perpetual virginity as a historical belief in contrast to Romanism holding it to be formally of the faith itself was the near universal view of Protestantism in that era and the article shows the ethical and Scriptural coherence of this view You will learn more about the metaphysics of Christ's Person than you ever have and that is just the beginning See what you think and may it whet your taste for reading more of Mastricht **Conceiving the Embryo** Donald Evans,Neil

Pickering,2023-08-28 This volume of essays together with its companion Creating the Child The Ethics Law and Practice of Assisted Procreation Martinus Nijhoff The Hague 1996 ISBN 90 411 0207 8 is the result of a concerted action in the BIOMED programme of the European Commission which was coordinated by the Editor Clinicians lawyers and philosophers explore the theoretical and practical problems presented by the new technologies in assisted human reproduction in Eastern Central and Western Europe The central question of the status of the human embryo is examined in the light of recent biological discoveries and cultural and legal dissonance within and between the various countries in Europe **Abortion and America's Churches** Daniel K. Christians think about abortion Many people assume that Christians have steadfastly condemned abortion throughout the United States s history Daniel K Williams overthrows all assumptions about the unity consistency or simplicity of American Christian thought and belief in this groundbreaking new book He demonstrates that churches in the United States have fought among themselves and with the wider culture as they developed and enforced their stance on abortion revealing major struggles to define their often changing positions Far from a cynical exercise of political interest changes and disagreements arose from serious theological considerations informed by each tradition s approach to the faith These theological shifts and corresponding shifts in interreligious political alliances led to the changing fortunes of Roe v Wade By capturing the fascinating and complicated history informing each faith s position Abortion and America s Churches restores much needed context to the sharp polarization over abortion today [Encyclopedia of Stem Cell Research](#) Clive N.

Svendsen, Allison D. Ebert, 2008-08-12 What is a stem cell We have a basic working definition but the way we observe a stem cell function in a dish may not represent how it functions in a living organism Only this is clear Stem cells are the engine room of multicellular organisms both plants and animals However controversies breakthroughs and frustration continue to swirl in eternal storms through this rapidly moving area of research But what does the average person make of all this and how can an interested scholar probe this vast sea of information The Encyclopedia of Stem Cell Research provides a clear understanding of the basic concepts in stem cell biology and addresses the politics ethics and challenges currently facing the field While stem cells are exciting alone they are also clearly fueling the traditional areas of developmental biology and the field of regenerative medicine These two volumes present more than 320 articles that explore major topics related to the emerging science of stem cell research and therapy Key Features Describes the different types of stem cells that have been reported so far and where possible tries to explain for each age tissue and species what is known about the biology of the cells and their history Captures a strong sense of stem cell biology as it stands today and provides the reader with a reference manual to probe the mysteries of the field Considers various religious legal and political perspectives Includes selected reprints of major journal articles that pertain to the milestones achieved in stem cell research Elucidates stem cell terminology for the nonscientist Key Themes Biology Clinical Trials Countries Diseases Ethics History and Technology Industry Institutions Legal Organizations People Politics Religion States With contributions from scholars and institutional experts in the stem cell and social sciences this Encyclopedia provides a primarily nonscientific resource to understanding the complexities of stem cell research for academic and public libraries **An Introduction to Theological Anthropology**

Joshua R. Farris, 2020-04-21 In this thorough introduction to theological anthropology Joshua Farris offers an evangelical perspective on the topic Farris walks the reader through some of the most important issues in traditional approaches to anthropology such as sexuality posthumanism and the image of God He addresses fundamental questions like Who am I and Why do I exist He also considers the creaturely and divine nature of humans the body soul relationship and the beatific vision

Tertullian and the Unborn Child Julian Barr, 2017-02-17 Tertullian of Carthage was the earliest Christian writer to argue against abortion at length and the first surviving Latin author to consider the unborn child in detail This book is the first comprehensive analysis of Tertullian's attitude towards the foetus and embryo Examining Tertullian's works in light of Roman literary and social history Julian Barr proposes that Tertullian's comments on the unborn should be read as rhetoric ancillary to his primary arguments Tertullian's engagement in the art of rhetoric also explains his tendency towards self contradiction He argued that human existence began at conception in some treatises and not in others Tertullian's references to the unborn hence should not be plucked out of context lest they be misread Tertullian borrowed modified and discarded theories of ensoulment according to their usefulness for individual treatises So long as a single work was internally consistent Tertullian was satisfied He elaborated upon previous Christian traditions and selectively borrowed from ancient embryological theory to prove specific theological and moral points Tertullian was more influenced by Roman custom than he would perhaps have admitted since the contrast between pagan and Christian attitudes on abortion was more rhetorical than real
