*Kahlil Joseph and the Audiovisual Atlantic* Joe Jackson, 2024-07-11 It s wonderful to read a book that ranges across music cinema music video art and literature with such ease One of the beautiful things about this book is that it is really attentive to relationships and this is particularly clear when talking about Kahlil Joseph s creative mentors and comrades including Arthur Jafa and Terrence Malick Tsitsi Ella Jaji Helen S Bevington Associate Professor of Modern Poetry Associate Professor of African American Studies Duke University USA Kahlil Joseph has collaborated with musicians FKA twigs Flying Lotus Sampha and Shabazz Palaces among many others He has directed numerous films music videos and advertisements across Africa America and Europe The award winning filmmaker s disruptive style which frequently merges visual representations of transcontinental experiences with the countercultural energies of Afrodiasporic music challenges the Eurocentric biases underpinning Western media At the same time his works generate various contradictions and tensions because they are themselves products situated within an economic framework of neoliberal capitalism at once offering alternative ways of being while simultaneously participating in

and thereby sustaining the social structures that they otherwise seek to subvert and dismantle This is the first book length study of Kahlil Joseph s work Distinguishing the artist s personal and professional personas it traces Joseph s career trajectory and artistic output emphasizing how the director s construction of a multifaceted filmmaking persona operates in tandem with his artworks to challenge fixed unidimensional or stable notions of identity Through biographical study and deep examinations of the director s respective transmedia artworks this book draws from various discussions shaped by Paul Gilroy s ground breaking text *The Black Atlantic* 1993 By applying *The Black Atlantic* s disruptive audiocentric ideas to contemporary digital media forms generated by Kahlil Joseph and his peers alike this book challenges the latent Eurocentricity on which dominant theorizations of modernity as well as the overlapping fields of Film Media and Screen Studies are grounded In turn it offers an alternative framework for negotiating the paradoxes contradictions and transnational flows of our media saturated present namely the Audiovisual Atlantic This book has been selected as runner up for Best First Monograph 2025 by BAFTSS British Association of Film Television and Screen Studies

Edwards, 2009-02-25 Throughout his career Johnny Cash has been depicted and has depicted himself as a walking contradiction social protestor and establishment patriot drugged wildman and devout Christian crusader rebel outlaw hillbilly thug and elder statesman Leigh H Edwards explores the allure of this paradoxical image and its cultural significance She argues that Cash embodies irresolvable contradictions of American identity that reflect foundational issues in the American experience such as the tensions between freedom and patriotism individual rights and nationalism the sacred and the profane She illustrates how this model of ambivalence is a vital paradigm for American popular music and for American identity in general Making use of sources such as Cash s autobiographies lyrics music liner notes and interviews Edwards pays equal attention to depictions of

Cash by others such as Vivian Cash's publication of his letters to her documentaries and music journalism about him *Walk the Line* and fan club materials found in the archives at the Country Music Foundation in Nashville to create a full portrait of Cash and his significance as a cultural icon *Music Documentaries for Radio* Sam Coley, 2021-11-16 Drawing on both academic research and real world practice this book offers an in depth investigation into the production of music documentaries broadcast on radio *Music Documentaries for Radio* provides a thorough overview of how the genre has developed technically and editorially alongside a discussion of the practical production processes involved Digital production equipment and online tools used in music documentary production are discussed in detail outlining how the development of these technologies shapes the output of producers operating in both the public service and the commercial sectors of the industry Drawing on his own experiences as an award winning music documentary producer the author also looks at how the industry views this form of radio documentary and considers how innovation and technical advances as well as governmental regulation have shaped the field The book demonstrates how changing practices and technical innovations have led to the emergence of multi skilled freelance radio producers and how previously separate production roles have merged into one convergent multifaceted position *Music Documentaries for Radio* is an ideal resource for students and academics in the fields of radio studies media production documentary making and journalism studies **Billboard**, 1960-10-24 In its 114th year *Billboard* remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends **Sounds American** Ann Ostendorf, 2011 *Sounds American* provides new perspectives on the relationship between nationalism and cultural production by examining how Americans grappled with musical diversity in the early national and antebellum eras During this period a resounding call to create a distinctively American music culture emerged as a way to bind together the varied changing and uncertain components of the new nation This played out with particular intensity in the lower Mississippi River valley and New Orleans especially Ann Ostendorf argues that this region often considered an exception to the nation with its distance from the center of power its non British colonial past and its varied population actually shared characteristics of many other places eventually incorporated into the country thus making it a useful case study for the creation of American culture Ostendorf conjures the territory's phenomenally diverse music ways including grand operas and balls performances by church choirs and militia bands and itinerant violin instructors Music was often associated with foreigners in particular Germans French Irish and Africans For these outsiders music helped preserve collective identity But for critics concerned with developing a national culture this multitude of influences presented a dilemma that led to an obsessive categorization of music with racial ethnic or national markers Ultimately the shared experience of categorizing difference and consuming this music became a unifying national phenomenon Experiencing the unknown became a shared part of the American experience *The Musical World*
