Warren, 2006-07-19 One of the great strengths of the book is that it illustrates how critical pedagogy might actually look and feel and be useful as an organizing principle in an educator's life The wonderful statements about empowering students creating spaces for dialogue and envisioning moments of emancipation are hard to translate into real institutional settings The authors are willing to open up their own areas of vulnerability by describing their efforts to enact critical pedagogy and then reflecting on their missteps disappointments and blind spots Jo Sprague San Jose State University In this autoethnographic work authors Deanna L. Fassett and John T. **Contesting Identities** Aaron Baker, 2003 Publisher's description Since the earliest days of the silent era American filmmakers have been drawn to the visual spectacles of sports and their compelling narratives of conflict triumph and individual achievement In *Contesting Identities* Aaron Baker examines how these cinematic representations of sports and athletes have evolved over time from *The Pinch Hitter* and *Buster Keaton's College* to *White Men Can't Jump* *Jerry Maguire* and *Girlfight* He focuses on how identities have been constructed and transcended in American society since the early twentieth century Whether depicting team or individual sports these films return to that most American of themes the master narrative of self reliance Baker shows that even as sports films tackle socially constructed identities such as class race ethnicity sexuality and gender they ultimately underscore transcendence of these identities through self reliance In addition to discussing the genre's recurring dramatic tropes from the populist prizefighter to the hot headed rebel to the manly female athlete Baker also looks at the social and cinematic impacts of real life sports figures from Jackie Robinson and Babe Didrikson Zaharias to Muhammad Ali and Michael Jordan
