Freeland, 2024-07-19 This is the first in depth historical study of feminist activism against domestic violence in divided Berlin between 1968 and 2002 Starting in the 1970s feminists in West and then East Berlin campaigned against domestic violence as a key issue of women's inequality They exposed the harmful gender norms that left women unprotected and vulnerable to abuse in the home and called for this to change Indeed domestic violence has been one of the issues most effectively addressed by the women's movement in Germany Since the first shelter opened in West Berlin in 1976 women's shelters have spread throughout the country and today up to 45 000 women a year turn to emergency housing in Germany with many more accessing helplines and crisis centres Situating domestic violence activism within a broader history of feminism in post war Germany Feminist Transformations traces the evolution of this movement both across political division and reunification and from grassroots campaign to established professionalised social service In doing so it brings the histories of feminism in East and West Berlin together for the first time and explores how feminism successfully changed women's rights in Germany But it also asks what popular and political support for domestic violence activism has meant for feminism and the advancement of women's rights more broadly Examining the trajectory of feminism in Germany Jane Freeland reveals the limitations of gender equality as advancements in women's rights were often built on the reassertion of patriarchal gender roles

Using examples from the people's art of Potsdammer Platz to the ways in which Western cultural icons are reinterpreted in Asian magazines, this collection of essays unpicks the rhetoric of globalization in political analysis, cultural theory and urban and economic sociology and exposes the myth of the global society as in many cases a dangerous exaggeration.
