Conversations with Stockhausen Karlheinz Stockhausen, Mya Tannenbaum, 1987 This intriguing series of interviews reveals both the professional and the personal dimensions of this controversial influential composer Messiaen's Musical Techniques: The Composer's View and Beyond Gareth Healey, 2016-04-22 Despite Messiaen's position as one of the greatest technical innovators of the twentieth century his musical language has not been comprehensively defined and investigated The composer's 1944 theoretical study *The Technique of My Musical Language* expounds only its initial stages and while his posthumously published *Traité de rythme, de couleur, et d'ornithologie* contains detailed explanations of selected techniques in most cases the reader is left to define these more precisely by observing them in the context of Messiaen's analyses of his own works Technical processes are nevertheless in many cases the primary components of a work or movement For instance personages dominate *Joie du sang des toiles* from the *Turangala symphonie* and in certain cases such as *Le change* from the *Vingt regards sur l'Enfant Jésus* the process asymmetric augmentation is the only structuring element present Given this reliance on idiosyncratic techniques clear comprehension of the music is impossible without a detailed knowledge of Messiaen's methods Gareth Healey charts their development and interconnections considers their relationship with formal structures and applies them in refined and extended form to works for which Messiaen himself left no published analysis

Musical Figurations Ronald M. Radano,2009-05-20 New Musical Figurations exemplifies a dramatically new way of configuring jazz music and history By relating biography to the cultural and musical contours of contemporary American life Ronald M Radano observes jazz practice as part of the complex interweaving of postmodern culture a culture that has eroded conventional categories defining jazz and the jazz musician Radano accomplishes all this by analyzing the creative life of Anthony Braxton one of the most emblematic figures of this cultural crisis Born in 1945 Braxton is not only a virtuoso jazz saxophonist but an innovative theoretician and composer of experimental art music His refusal to conform to the conventions of official musical culture has helped unhinge the very ideologies on which definitions of jazz black music popular music and art music are founded New Musical Figurations gives the richest view available of this many sided artist Radano examines Braxton s early years on the South Side of Chicago whose vibrant black musical legacy inspired him to explore new avenues of expression Here is the first detailed history of Braxton s central role in the Association for the Advancement of Creative Musicians the principal musician run institution of free jazz in the United States After leaving Chicago Braxton was active in Paris and New York collaborating with Philip Glass Steve Reich Frederic Rzewski and other composers affiliated with the experimental music movement From 1974 to 1981 he gained renown as a popular jazz performer and recording artist Since then he has taught at Mills College and Wesleyan University given lectures on his theoretical musical system and written works for chamber groups as well as large opera scale pieces The neglect of radical challenging figures like Braxton in standard histories of jazz Radano argues mutes the innovative voice of the African American musical tradition Refreshingly free of technical jargon New Musical Figurations is more than just another variation on the same jazz theme Rather it is an exploratory work as rich in theoretical vision as it is in historical detail *Electronic Inspirations* Jennifer Iverson,2019 For a decimated post war West Germany the electronic music studio at the WDR radio in Cologne was a beacon of hope Jennifer Iverson s *Electronic Inspirations* Technologies of the Cold War Musical Avant Garde traces the reclamation and repurposing of wartime machines spaces and discourses into the new sounds of the mid century studio In the 1950s when technologies

were plentiful and the need for reconstruction was great West Germany began to rebuild its cultural prestige via aesthetic and technical advances The studio s composers collaborating with scientists and technicians coaxed music from sine tone oscillators noise generators band pass filters and magnetic tape Together they applied core tenets from information theory and phonetics reclaiming military communication technologies as well as fascist propaganda broadcasting spaces The electronic studio nurtured a revolutionary synthesis of science technology politics and aesthetics Its esoteric sounds transformed mid century music and continue to reverberate today Electronic music echoing both cultural anxiety and promise is a quintessential Cold War innovation

Avant-Garde on Record Jonathan Goldman,2023-11 An innovative contribution to music history cultural studies and sound studies Avant garde on Record revisits post war composers and their technologically oriented brand of musical modernism It describes how a broad range of figures including Pierre Boulez Karlheinz Stockhausen Henri Pousseur Toshir Mayuzumi Claire Schapira Anthony Braxton and Gunther Schuller engaged with avant garde aesthetics while responding to a rapidly changing technologically fuelled spatialized audio culture Jonathan Goldman focuses on how contemporary listeners understood these composers works in the golden age of LPs and explores how this reception was mediated through consumer oriented sound technology that formed a prism through which listeners processed the music of their time His account reveals unexpected aspects of twentieth century audio culture from sonic ping pong to son et lumi re shows from Venetian choral music by Stravinsky to the soundscape of Niagara Falls from a Buddhist Cantata to an LP box set cast as a parlour game

material in Adorno's late aesthetic theory and a call for an aesthetics of risk in contemporary art as a means to reassert the essential role of criticism of judgment and of evaluation as necessary conditions to bring about a real public debate on the art of today Part III offers creative perspectives with new essays and interviews from important contemporary composers who have made
