functions as a catalogue raisonnee of Stockhausen's complete output. With plentiful citations from the history of radio, film, and sound recording as well as from contemporary science and technology, the book is laid out in chronological order and contains ample commentary on the composer's sources of inspiration. Each composition is also fully documented within the text, giving full information of each work's publisher, catalog number, instrumentation, duration, and authorized compact disc. The updated edition extends the range of the volume's contents to include the twenty-five works Stockhausen composed between 2004 and his death in 2007. Stockhausen's status in the history of music in the late twentieth century can now be appreciated with unprecedented clarity. All listeners will benefit from this work, and American music lovers in particular will find it an invaluable guide to the ongoing debate and rivalry over the sources of abstract expressionism and the avant-garde.

Xenakis - Back to the Roots Reinhold Friedl, Thomas Grill, Nikolaus Urbanek, Michelle Ziegler, 2025-02-27. The electroacoustic works of the Greek-French composer Iannis Xenakis (1922-2001) captivate with their radical ideas, sounds, and compositional models. They were often conceived as multimedia works for specific locations and architectures. The richness of the approaches and processes gave rise to an extensive body of sources. Therefore, this volume is particularly dedicated to a philological approach, combining contributions by companions of Xenakis and renowned experts in Xenakis research with studies in the philology of electroacoustic music. It concludes with a roundtable discussion of the performance of these electroacoustic works, thus linking the philological questions back to musical practice.
