Miserly Moms Jonni McCoy, 2009-04-01 With gas and food prices soaring there s more need than ever before for Jonni McCoy s Miserly Moms Jonni shares the money saving strategies that allowed her family to transition from two incomes to one These practical proven strategies tips and recipes will help anyone live frugally without feeling deprived Real life examples show how anyone can learn to live more carefully and reach their financial goals Now in its fourth edition Miserly Moms is packed with even more ways to reduce a family s expenses and expose hidden living costs The Organic Profit Andrew N. Case, 2018-03-15 From green lifestyle mavens who endorse products on social media to natural health activists sponsored by organic food companies the marketplace for advice about how to live life naturally is better stocked than ever Where did the curious idea of buying one s way to sustainability come from In no small part as Andrew Case shows the answer lies in the story of entrepreneur and reformer J I Rodale his son Robert Rodale and their company the Rodale Press These pioneers of organic gardening were also pioneers in cultivating a niche for natural health products in the 1950s organizing the emerging marketplace for organic foods in the 1960s and publishing an endless supply of advice books on diet and health in the process Rodale s marketplace environmentalism brought environmentally minded consumers together and taught Americans how to grow food eat and live in more environmentally friendly ways Yet the marketplace has proved more effective at addressing individual health concerns than creating public health interventions It is as liable to champion untested and ineffectual health supplements as it is to challenge the indiscriminant use of dangerous pesticides For anyone trying to make sense of the complex tensions between business profits and the desire for environmental reform The Organic Profit is essential reading *Quick Bibliography Series*, 1976 **Food Not Lawns** Heather Jo Flores, 2006-10-15

The Knowledge Lewis Dartnell, 2015-03-10 How would you go about rebuilding a technological society from scratch If our technological society collapsed tomorrow what would be the one book you would want to press into the hands of the postapocalyptic survivors What crucial knowledge would they need to survive in the immediate aftermath and to rebuild civilization as quickly as possible Human knowledge is collective distributed across the population It has built on itself for centuries becoming vast and increasingly specialized Most of us are ignorant about the fundamental principles of the civilization that supports us happily utilizing the latest or even the most basic technology without having the slightest idea of why it works or how it came to be If you had to go back to absolute basics like some sort of postcataclysmic Robinson Crusoe would you know how to re create an internal combustion engine put together a microscope get metals out of rock or even how to produce food for yourself Lewis Dartnell proposes that the key to preserving civilization in an apocalyptic scenario is to provide a quickstart guide adapted to cataclysmic circumstances The Knowledge describes many of the modern technologies we employ but first it explains the fundamentals upon which they are built Every piece of technology rests on an enormous support network of other technologies all interlinked and mutually dependent You can't hope to build a radio for example without understanding how to acquire the raw materials it requires as well as generate the electricity needed to run it But Dartnell doesn't just provide specific information for starting over he also reveals the greatest invention of them all the phenomenal knowledge generating machine that is the scientific method itself The Knowledge is a brilliantly original guide to the fundamentals of science and how it built our modern world
