William H. Steffen, 2023 *Anthropocene Theater and the Shakespearean Stage* revises the anthropocentric narrative of early globalization from the perspective of the non human world in order to demonstrate Nature's agency in determining ecological economic and colonial outcomes. It welcomes readers to reimagine theater history in broader terms and to account for more non human and atmospheric players in the otherwise anthropocentric history of Shakespearean performance. This book analyses plays horticultural manuals cosmetic recipes Puritan polemics and travel writing in order to demonstrate how the material practices of the stage both catalyze and resist early forms of globalization in an ecological arena. William Steffen addresses the role of an understudied ecological performance history in determining Shakespeare's iconic cultural status and models how non human players have undermined Shakespeare's authoritative role in colonial discourse. Finally this book makes a celebratory argument for the humanities in the age of climate change and invites interdisciplinary engagement a research community that is compelled to find strategies for cultivating a hopeful tomorrow amidst unprecedented anthropogenic environmental changes.

Papal Reich Arun Pereira, 2002-12-01 His voice was soft yet strong. A hypnotic silence enveloped the room. Allied versus Axis powers Capitalism versus communism. They were the conflicts of the twentieth century. Today it is religion against religion. Look around you conflicts in Eastern Europe Northern Ireland the Middle East and the Far East Muslims versus Christians Christians versus Catholics Jews versus Muslims Christians versus Jews Hindus versus Muslims. A dramatically different world awaits us. A world based on religious loyalty not national patriotism. We saw a glimpse of it in 2001 in Afghanistan. Among Al Qaeda and the Taliban were American British and French citizens fighting for religion against their own countries. In the new world order religious loyalty will best national patriotism. The nations of today will be nondescript parts of regional trade blocs tomorrow. With open borders people will traverse the world at will searching for economic betterment tethered only to their religions. Global power will shift from nations to religions. His voice was a whisper now. Prepare for a new superpower.
