CAVE DWELLERS IN GRAFFITI BATTLE

Graffiti - the curse of the modern age.

Tenants of the Lascaux caves in the Dordogne are hopping mad. They've been given two weeks to get out of their homes, all on ac-

count of a little wall-painting.

VANDALS

"They're vandals," said the caves' landlord. "Before these people moved in the caves were in excellent condition. Now they're covered in graffiti which will cost a great deal to remove. We are understandably annoyed, having spent a lot of time and money bringing these dwellings up to modern standards."

And here's its hoof print. See? During the long winter months we put a lot of effort into these paintings so that our children can recognize the animal and its track. It makes the hunting season so much easier. Imagine what would happen if we didn't do it. We'd have kids nuzzling at a sabre-toothed tiger shouting, "Goat! Easy meat!"

PROPERTY SLUMP

But the landlord is standing his ground. "In these times of falling house prices you can't afford to let standards slip," said the agents. "Some of the graffiti is quite unrecognizable as man or beast. And look at the roof."

MAN BURNS FINGER IN FIRE

**Expert Warns Of
New Cave Danger**

"It was a shock," caveman Zog told the Sentinel. "I got home from a hard day's hunting-gathering and saw this pretty red stuff in the cave. Naturally, I reached out to touch it. Imagine my surprise when I got burned. It was fire! Fire, previously a natural phenomenon, has entered the house. Reports from around the

world point to widespread use of this dangerous new domestic appliance.

VOLCANOES

Insurance companies blame the Society of Firemakers. "They go out with long sticks looking for fire whenever they can find it," said a spokesman. Bush fires, lightning strikes, volcanoes, anything that's hot. Then they put their

Knowledge, Power and Ignorance Bidhan Kanti Das, Gorky Chakraborty, Abhijit Guha, 2024-06-21 What is knowledge and ignorance How is it decided Do power and power relations influence this process Does the spread of knowledge lead to more ignorance Is ignorance socially produced Is knowledge always socially contextualized This book deals with these important questions on the interplay of knowledge ignorance and power located in varied contexts in India As systematic knowledge grows so does the possibility of ignorance Ignorance is a state which people attribute to others and is loaded with moral judgment Thus being underdeveloped often implies a kind of stupidity or failure This volume seeks to be premised in a framework where ignorance is understood as being a socially produced and maintained phenomenon where the ways of knowing and not knowing are interdependent It is a novel attempt for an academic re orientation of the Knowledge

Ignorance paradigm through a process of re interpretation of the bounded purview attached with the existing epistemological understandings It focuses on concrete case studies often with an ethnographic stint The volume critically looks at various aspects Epistemological Issues Understanding Community Perspectives and the State Natural Resources Power and Ignorance Media and Production of Non Knowledge and other emerging areas Each essay bears a striking similarity that of understanding the complex processes and dynamics of the production of ignorance in a field of commonly held beliefs of knowledge be it scientific societal religious magical or political through the overarching realm of power This interdisciplinary volume will be of interest to a cross section of academics and students of sociology social anthropology political science human geography history public policy and development studies

In the Forest Vishvajit Pandya, 2009-04-16 There are always at least two histories of encounter or contact as each party would tell the story differently but where and when is it really the first contact and for whom This book deploys an analytical framework developed from Semiotics to have both sides of the story address each other It is ethnography of dialogue emerging from textual representation by outsiders and its relationship to visual response and presentations by the Andaman Islanders that this book aims to present as the critical ethnography of history The section on Visuality looks at how the Other is incorporated into an organized knowledge system including Ongee myths and songs about outsiders and the early photographs of tribal people by British settlers and ethnographers The section on Materiality concerns the investment in things made to influence natural processes or to distinguish the human body and discusses how they are transacted between cultures that come into contact The concluding section on history addresses encounters and developments in which the experiences of both tribal and settler are implicated more thoroughly than in the transaction of objects Thus juxtaposing alternative perspectives on change indicates areas of experience unaccounted for in the dominant discourse and shows the provisionality of images

Mission To Earth Fil Munas, 2014-10-27 This is the account of a mission I undertook from Galymon to a small rocky planet in a quiet quadrant of our present Universe My original report regarding this matter was delivered to the Most High Tribunal of Galymon which is the Supreme Authority on my home planet I wish to acknowledge my deep gratitude to our High Tribunal for this opportunity And with those astonishing words Mac the alien protagonist in this extraordinary tale masterfully recounts the history of Earth since its advent 4 54 billion years ago and relates with amazing authenticity the 200 000 year odyssey of Homo sapiens and how they became the dominant lifeform on their planet today This scientific novel colorfully channels the reader from the inception of this Universe 13 8 billion years ago to the present The narrative describes the exponential rise of these humans from speciation in East Africa to modern space traveler from archaic hunter gatherer to accomplished brain surgeon from tinkering with fire to building nuclear reactors And on this breathtaking journey the reader is always kept supremely informed and pleasantly entertained But with their starkly genocidal ethos can this species survive A novel with footnotes From the Big Bang to mass extinctions from the nature of life to the future of humans it s all here and it s pure magic

Islands Of India Dr. Sarit Kumar Mukerji, This book gives many interesting and informative details about the various big and small islands of India. **The Granite Monthly**, 1914. **Telling Children About the Past** Nena Galanidou, Liv Helga Dommasnes, 2007-12-01. This book brings together archaeologists, historians, psychologists and educators from different countries and academic traditions to address the many ways that we tell children about the distant past. Knowing the past is fundamentally important for human societies as well as for individual development. The authors expose many unquestioned assumptions and preformed images in narratives of the past that are routinely presented to children. The contributors both examine the ways in which children come to grips with the past and critically assess the many ways in which contemporary societies and an increasing number of commercial agents construct and use the past.
