chief Banqueting House mason Nicholas Stone to the daughter of the City Mason of booming Amsterdam a nasty incident at the stone loading pier at Portland and Inigo Jones's struggles to pay stone workers from King James's bankrupt Treasury The new findings presented in Inigo's Stones also see Inigo Jones studying Roman stones and marbles in Italy with Lord and Lady Arundel initiating the first geological study of Stonehenge searching for Portland stones big enough to replicate the Carystian marble monoliths of the Roman temple of Antoninus and Faustina in London and procuring Irish marbles to reflect imperial glory on his friend King Charles I Inigo emerges not just as a Court propagandist and Vitruvian architect but also as a resourceful businessman doing his best to cope at a time when the government was even shorter of cash than it is today Reflecting on the questions raised by Inigo's work for the Stuart kings the author Tom Williamson extends the story to cover the whole field of how rulers have used stones and marbles to project imperial power Focusing on the stones of three once mighty empires the Roman the Mughal and the British the book ends with a surprising twist **Lonely Planet Great**
