Look Younger, Live Longer Francisco Contreras, 2016-06-07 Are you a baby boomer facing the hard facts of aging in your own life Or are you young and determined to stay that way for as long as possible Genesis 6:3 suggests that God set the human life span at one hundred twenty years Breakthrough scientific research has unlocked many of the secrets of aging proving the biblical age limitation to be correct Dr Francisco Contreras offers proven research that will improve your health and perhaps reverse any illness or disease once and for all According to Dr Contreras you have the power right now to greatly increase your life span and to feel better and look younger *The Denial of Aging* Muriel R. Gillick, 2009-06-30 You've argued politics with your aunt since high school but failing eyesight now prevents her from keeping current with the newspaper Your mother fractured her hip last year and is confined to a wheelchair Your father has Alzheimer's and only occasionally recognizes you Someday as Muriel Gillick points out in this important yet unsettling book you too will be old And no matter what vitamin regimen you're on now you will likely one day find yourself sick or frail How do you prepare What will you need With passion and compassion Gillick chronicles the stories of elders who have struggled with housing options with medical care decisions and with finding meaning in life Skillfully incorporating insights from medicine health policy and economics she lays out action plans for individuals and for communities In addition to doing all we can to maintain our health we must vote and organize for housing choices that consider autonomy as well as safety for employment that utilizes the skills and wisdom of the elderly and for better management of disability and chronic disease Most provocatively Gillick argues against desperate attempts to cure the incurable Care should focus on quality of life not whether it can be prolonged at any cost A good old age writes Gillick is within our grasp But we must reach in the right direction *The Long Tomorrow* Michael R. Rose, 2005-09-15 Equally important Rose surveys the entire field offering colorful portraits of many leading scientists and shedding light on research findings from around the world We learn that rodents given fifteen to forty percent fewer calories live about that much longer and that volunteers in Biosphere II who lived on reduced caloric intake for two years all had improved vital signs Perhaps most interesting we discover that aging hits a plateau and stops at least it does so

in fruit flies Jacket **50 Secrets of the World's Longest Living People** Sally Beare, 2009-04-21 Today we are living longer than ever before and a few of us can expect to live to 100 or more But many people feel that they will inevitably suffer the diseases of old age in their final years Pharmaceutical companies have spent billions of dollars trying to find a cure for the diseases of aging they may have found ways to stem some of the symptoms but they have yet to find a panacea Yet there are places in the world where all along people have commonly lived to 100 or more without suffering so much as a headache How do they do it The answer is simple through sound dietary habits and balanced healthy lifestyles The 50 Secrets of the World's Longest Living People looks at the nutrition and lifestyle mores of the world's five most remarkable longevity hotspots Okinawa Japan Bama China Campodimele Italy Symi Greece and Hunza Pakistan and explains how we too can incorporate the wisdom of these people into our everyday lives It offers each of the secrets in detail provides delicious authentic recipes and outlines a simple to master plan for putting it all together and living your best and longest life *Stop Aging Now!* Jean Carper, 2024-03-19 In *Stop Aging Now* Jean Carper winner of the 1995 Excellence in Journalism Award from the American Aging Association the nation's leading group of scientists investigating the biomedical aspects of aging nationally syndicated columnist and leading authority on health and nutrition documents how antioxidant vitamins minerals herbs and food chemicals are the magic youth potions humans have been seeking for centuries Based on exciting new scientific findings from leading institutions *Stop Aging Now* reveals the stunning truth Much of what we call aging is not inevitable but is needless and can be prevented and reversed to a startling degree by supplements and foods Indeed aging is often due to unsuspected deficiencies that can be readily corrected and even people in their sixties seventies and eighties can turn back the clock and recover their youth Leading scientists have found that Vitamins can prevent and reverse memory loss and other signs of aging Vitamins and minerals can rejuvenate immune functions restoring youthful resistance to infections and cancer Antioxidants in foods and supplements can help prevent clogged arteries heart attacks and general bodily deterioration Many unfamiliar but readily available food chemicals can prolong life and preserve your vitality *Aging and the Art of Living* Jan Baars, 2012-08-20 In this deeply considered meditation on aging in Western culture Jan Baars argues that in today's world living longer does not necessarily mean living better He contends that there has been an overall loss of respect for aging to the point that understanding and dealing with aging people has become a process focused on the decline of potential and the advance of disease rather than on the accumulation of wisdom and the creation of new skills To make his case Baars compares and contrasts the works of such modern era thinkers as Foucault Heidegger and Husserl with the thought of Plato Aristotle Sophocles Cicero and other Ancient and Stoic philosophers He shows how people in the classical period less able to control health hazards had a far better sense of the provisional nature of living which led to a philosophical and religious emphasis on cultivating the art of living and the idea of wisdom This is not to say that modern society's assessments of aging are insignificant but they do need to balance an emphasis on the measuring of age with the

concept of living in time Gerontologists philosophers and students will find Baars discussion to be a powerful perceptive conversation starter W Andrew Achenbaum author of Older Americans Vital Communities **Aging Without Growing Old** Judy Lindberg McFarland, Laura Gladys McFarland, 2003 Most people today are aging too rapidly and are dying from illnesses that could be prevented Judy Lindberg McFarland wants to help readers prevent all the degenerative diseases and illnesses that accompany aging and the heartaches resulting from the loss of one's health In Aging Without Growing Old men and women of all ages will find out how to become healthy through natural and nutritional means They'll learn how to enjoy greater health no matter how old they are and how to slow the aging process down to a crawl It is possible to start defying your age with the essential information found in this book **Night World** L.J. Smith, 2016-12-06 When she is diagnosed with a terminal illness Poppy is astounded when her best friend James reveals that he is a vampire and has always loved her and Poppy is forced to choose between dying young and becoming a vampire
