Zen on the go Aditi Pant,2019-08-27 It takes time and a lot of seasons for a great tree to realize its true dimensions From that vantage point it tells us stories stories not only of joy but also those that contain pain As the seasons change the tree changes as well it rejoices with spring tempers with summer wizens with autumn and quietens with the winter This process of watching the tree as it accepts embodies and reflects every season and learns from it is the very alchemy of Zen All of us have grown up listening to stories from this tree of life The esoteric becomes real in the telling and retelling of stories It is these stories that teach us that happiness is not found in seeking out extraordinary experiences but in examining our life closely in reflecting on our experiences and in becoming more cognizant of our surroundings just like the tree This is a book of little stories and anecdotal experiences which pull us out of our hectic schedules and help us discover a moment of Zen in our own lives

Wake Up! They Control Us from Other Dimensions!!! SUNIL AD,2023-07-27 There has always been a commotion among people on Creation Vs Evolution Some people believe they are souls and some advocate the importance of the body Suppose humans send autonomous robots to Mars for an expedition They are connected with humans via programming If robots evolved to be conscious would they take humans as their souls If we think deeply we see that we are similar to them and some beings from other dimensions control us Robots are sent to Mars to send humans data via all installed devices Similarly humans constantly feed information to the subconscious mind via the senses Are humans a different species of robots created by entities from higher dimensions Buddha denounced the idea of us being souls Instead he suggested all humans listen to the body s vibration to get rid of suffering We don t reincarnate the entities learning through our senses and thoughts reincarnate Thus when this body dies we die and there is no coming back that is the game over This book provides several profound thought experiments and scientific analyses of conspiracy theories spirituality religions time universe and philosophy to realize who we really are
