As If God Existed Maurizio Viroli,2012-09-09 Religion and liberty are often thought to be mutual enemies if religion has a natural ally it is authoritarianism not republicanism or democracy But in this book Maurizio Viroli a leading historian of republican political thought challenges this conventional wisdom He argues that political emancipation and the defense of political liberty have always required the self sacrifice of people with religious sentiments and a religious devotion to liberty This is particularly the case when liberty is threatened by authoritarianism the staunchest defenders of liberty are those who feel a deeply religious commitment to it Viroli makes his case by reconstructing for the first time the history of the Italian religion of liberty covering its entire span but focusing on three key examples of political emancipation the free republics of the late Middle Ages the Risorgimento of the nineteenth century and the antifascist Resistenza of the twentieth century In each example Viroli shows a religious spirit that regarded moral and political liberty as the highest goods of human life was fundamental to establishing and preserving liberty He also shows that when this religious sentiment has been corrupted or suffocated Italians have lost their liberty This book makes a powerful and provocative contribution to today s debates about the compatibility of religion and republicanism

**Centre and Periphery** Tessa Hauswedell, Axel Körner, Ulrich Tiedau, 2019-03-25 Historians often assume a one directional transmission of knowledge and ideas leading to the establishment of spatial hierarchies defined as centres and peripheries In recent decades transnational and global history have contributed to a more inclusive understanding of intellectual and cultural exchanges that profoundly challenged the ways in which we draw our mental maps Covering the early modern and modern periods Re Mapping Centre and Periphery investigates the asymmetrical and multi directional structure of such encounters within Europe as well as in a global context Exploring subjects from the shores of the Russian Empire to nation making in Latin America the international team of contributors demonstrates how as products of human agency centre and periphery are conditioned by mutual dependencies rather than representing absolute categories of analysis they are subjective constructions determined by a constantly changing discursive context Through its analysis the volume develops and implements a conceptual framework for remapping centres and peripheries based on conceptual history and discourse history As such it will appeal to a wide variety of historians including transnational cultural and intellectual and historians of early modern and modern periods *London's Urban Landscape* Christopher Tilley, 2019-05-07 London s Urban Landscape is the first major study of a global city to adopt a materialist perspective and stress the significance of place and the built environment to the urban landscape Edited by Christopher Tilley the volume is inspired by phenomenological thinking and presents fine grained ethnographies of the practices of everyday life in London In doing so it charts a unique perspective on the city that integrates ethnographies of daily life with an analysis of material culture The first part of the volume considers the residential sphere of urban life discussing in detailed case studies ordinary residential streets housing estates suburbia and London s mobile linear village of houseboats The second part analyses the public sphere including ethnographies of markets a park the social rhythms of a taxi rank and graffiti and street art London s Urban Landscape returns us to the everyday lives of people and the manner in which they understand their lives The deeply sensuous character of the embodied experience of the city is invoked in the thick descriptions of entangled relationships between people and places and the paths of movement between them What stories do door bells and house facades tell us about contemporary life in a Victorian
