**Historicism and Fascism in Modern Italy**

David D. Roberts,2007-10-27 During the early decades of the twentieth century Italy produced distinctive innovations in both the intellectual and political realms On the one hand Benedetto Croce 1866 1952 and Giovanni Gentile 1875 1944 spearheaded a radical rethinking of historicism and philosophical idealism that significantly reoriented Italian culture On the other hand the period witnessed the first rumblings of fascism Assuming opposite sides Gentile became the semi official philosopher of fascism while Croce argued for a renewed liberalism based on absolute historicism In **Historicism and Fascism in Modern Italy** David D Roberts uses the ideological conflict between Croce and Gentile as a basis for a wider discussion of the interplay between politics and ideas in Italy during the early twentieth century Roberts examines the connection between fascism and the modern Italian intellectual tradition arguing that the relationship not only deepens our understanding of fascism and liberalism but also illuminates ongoing dangers and possibilities in the wider Western world This set of twelve essays by one of the leading scholars in the field represents an authoritative view of the modern Italian intellectual tradition its relationship with fascism and its enduring implications for history politics and culture in Italy and beyond **La filosofia**

**dai greci al nostro tempo - La filosofia contemporanea** Emanuele Severino,2011-05-31 Dopo il grande tentativo sistematico ideato da Hegel la staffetta dei filosofi consegna il testimone agli scienziati chiamati in causa per rispondere all'angoscia e al terrore del divenire La filosofia contemporanea la consapevolezza di questo passaggio nella campagna per il dominio della realtà critica e ripensamento rigoroso dei fondamenti del sapere scientifico ma allo stesso tempo la gelosa custode del senso greco del divenire E proprio per questo diffida di ogni esaltazione del progresso tecnologico e ci offre una visione dell'uomo come essere libero che affronta il rischio l'avventura i pericoli della vita con audacia e spregiudicatezza In questa nuova edizione La filosofia contemporanea di Emanuele Severino pubblicata per la prima volta da Rizzoli nel 1986 riserva ampio spazio agli sviluppi della scienza nel nostro tempo e contiene una serie di approfondimenti bio bibliografici per conoscere vita e scritti dei grandi pensatori **Max Weber and His Contemporaries** Wolfgang J. Mommsen,Jürgen

Osterhammel,2013-10-28 Max Weber and His Contemporaries provides an unrivalled tour d'horizon of European intellectual life in the late nineteenth and early twentieth centuries and an assessment of the pivotal position within it occupied by Max Weber Weber's many interests in and contributions to such diverse fields as epistemology political sociology the sociology of religion and economic history are compared with and connected to those of his friends pupils and antagonists and also of those contemporaries with whom he had neither a personal relationship nor any kind of scholarly exchange Several contributors also explore Weber's attitudes towards the most important political positions of his time socialism conservatism and anarchism and his own involvement in German politics This volume contributes not only to a better understanding of one of the most eminent modern thinkers and social scientists but also provides an intellectual biography of a remarkable

generation This book was first published in 1987 *Gramsci's Historicism (Routledge Revivals)* Esteve Morera, 2013-12-19 First published in 1990 this book is a comprehensive study of Gramsci's Quaderni and gives the reader a penetrating account of the structure of Gramsci's thought The author draws on many materials and sources making accessible to the English speaking reader a wide range of texts otherwise only available in Italian French Spanish and Catalan His book sheds light on Gramsci's basic philosophical and methodological principles and will be useful as an introduction to Gramsci for students of political science sociology social science history and philosophy as well as to scholars in the field **Storia E Storicismo Nella Filosofia Contemporanea** Pietro ROSSI (Historian.), 1960 Marxism and Historiography Paolo Favilli, 2021-10-22 Eminent Italian historian Giovanni Levi once notably remarked that no one is a Marxist anymore pointing to a paradox in Italian cultural history While what is called Marxism was supposedly hegemonic over Italian culture and especially history writing for decades in the postwar period it then seems to have suddenly disappeared This study questions such a vision of a monolithic and hegemonic Marxism It starts from the most effective anecdote to all ideologising narratives that is research into the texts themselves It sees the Marxist historiography of the post 1945 period as a history in the making in which references to Marxian theory were a fundamental factor driving historiographical innovation This allows the book to bring to light a highly original experience in the development of historiography based on the long Italian tradition of reflection on historical knowledge *European Existentialism* Nino Langiulli, 2018-01-18 *European Existentialism* is a rich collection of major texts and is made all the more significant by the range and depth of its contributions This book aims to give greater intelligibility to existentialism by providing samples from antecedents of and influences upon it Although existentialism is regarded as an example of twentieth century philosophizing the book presents nineteenth century thinkers such as Kierkegaard and Nietzsche as its forerunners Thinkers such as Dilthey Husserl and Scheler frequently associated with other trends in philosophy such as historicism and phenomenology are included because of their influence upon existentialism Informative biographies of each author represented are also included *European Existentialism* includes a broad range of philosophers working in the existentialist mode not only French and German but also Spanish Italian Jewish and Russian philosophers This volume is also distinctive in that it omits existentialists from the literary world While Dostoevsky is often included in other existentialist collections Langiulli represents Russian philosophy with a selection by Berdyaev In his new introduction Langiulli discusses how the themes of existentialism have led to contemporary aberrations He uses the language of political rights as an example whereas we once referred to freedom of speech we have transformed that phrase into a much wider category freedom of expression Langiulli also examines various trends that have derived from existentialism postmodernism deconstructionism and multiculturalism Langiulli's introduction and the contributions place existentialism as a genuine tradition in the history of philosophy *European Existentialism* is an invaluable collection for philosophers educators and all those interested in the existentialist tradition *A. George Collingwood 1889 1943 Though the relationship between these highly influential philosophers has often been discussed it has never been studied comprehensively On the basis of published and unpublished writings this study carefully reconstructs their debate on the relationship between thought and action following their explorations of art history philosophy and action in the context of the First World War and the rise of Fascism and Nazism This book unveils the hidden past of contemporary philosophy of history and divulges the last secret of Collingwood's Italian connection *Terzo contributo alla storia degli studi classici e del mondo antico* Arnaldo Momigliano, 1966 *Historians across Borders* Nicolas Barreyre, Michael Heale, Stephen Tuck, Cecile Vidal, 2014-03-14 In this stimulating and highly original study of the writing of American history twenty four scholars from eleven European countries explore the impact of writing history from abroad Six distinguished scholars from around the world add their commentaries Arguing that historical writing is conditioned crucially by the place from which it is written this volume identifies the formative impact of a wide variety of institutional and cultural factors that are commonly overlooked Examining how American history is written from Europe the contributors shed light on how history is written in the United States and indeed on the way history is written anywhere The innovative perspectives included in *Historians across Borders* are designed to reinvigorate American historiography as the rise of global and transnational history is creating a critical need to understand the impact of place on the writing and teaching of history This book is designed for students in historiography global and transnational history and related courses in the United States and abroad for US historians and for anyone interested in how historians work **Materiali filosofici per una "storia della cultura"** Antonello Giugliano, 2002 Marxismo e storia Paolo Favilli, 2006 Power and Secularization Giacomo Marramao, 2025-03-04 This book offers a genealogical understanding of the condition of our time by reconstructing the complex story of the transition from the cyclical time of the classic era to the linear and infuturant time of the modern world Time is therefore understood not as a simple vector but as a trans political form par excellence which involves the fundamental philosophical and political categories of the modern constellation beginning with the concepts of progress revolution liberation and alternative Arguing that the process of secularization in its broadest sense is dependent on the modern notion of cumulative and irreversible time together with the temporalization of history *Power and Secularization* constitutes a conceptual history that will appeal to scholars of social and political theory and philosophy with interests in intellectual history and the genealogical method
