Storied Lives:

Storied Lives George C. Rosenwald, Richard L. Ochberg, 1992-01-01 The stories people tell about themselves are interesting not only for the events and characters they describe but for something in the construction of the stories themselves The ways in which individuals recount their histories what they emphasize and omit their stance as protagonists or victims the relationship the story establishes between teller and audience all shape what individuals can claim of their own lives Personal stories are not merely a way of telling someone or oneself about one's life they are the means by which identities may be fashioned from the Introduction In this provocative book psychologists anthropologists and sociologists analyze interviews with a range of subjects a minister who uses the death of his son to reaffirm his identity as a man of God women who have given up their children at birth for adoption and who blame society for their action Holocaust survivors a victim of marital rape and many others Together these studies suggest a new way of thinking about autobiographical narratives that these life stories play a significant role in the formation of identity that the way they are told is shaped and at times curtailed by prevalent cultural norms and that the stories and at times the lives to which they relate may be liberated from their psychic and social constraints if the social conditions of story telling can be critically engaged Presenting a wide range of life stories these studies demonstrate how telling one's life has the potential to clarify or mystify one's commitments and to animate or encumber one's future development *Storied Lives* Gary Y. Okihiro, 2011-10-01 During World War II over 5 500 young Japanese Americans left the concentration camps to which they had been confined with their families in order to attend college *Storied Lives* describes often in their own words how nisei students found schools to attend outside the West Coast exclusion zone and the efforts of white Americans to help them The book is concerned with the deeds of white and Japanese Americans in a mutual struggle against racism and argues that Asian American studies indeed race relations as a whole will benefit from an understanding not only of racism but also of its opposition antiracism To uncover this little known story Gary Okihiro surveyed the colleges and universities the nisei attended collected oral histories from nisei students and student relocation staff members and examined the records of the National Japanese American Student Relocation Council and other materials **The Storied Life** Jared C. Wilson, 2024-05-07 When writers write they are getting in touch with the image of God in them This is true in some way of all artistry but writers especially create worlds characters histories and transformation all ex nihilo out of nothing In *The Storied Life* veteran author Jared C Wilson explores the ins and outs of writers and writing exploring the myriad ways the craft is more about transformation than simply communication From decades of experience and with his signature wit Wilson brings well earned insight autobiographical reflections and meaningful meditations to the topic of writing as a way of life and as a way of worship showing how the concept of Story our personal stories and God's grand story of redemption shapes fiction and non fiction writers alike Chapters focus on topics like The liturgy of story Writing as a spiritual act Perseverance and endurance Writing as a calling Promotion publishing and

Our Lives are But Stories Esther Schely-Newman,2002 A rich analysis of how four Tunisian Israeli women tell the stories of their lives and a look at the implications for our own understanding of stories and the behavior of communication Our Lives Are But Stories explores the crucial role of personal storytelling in the lives of a unique generation of women Jewish women who left the Muslim country of Tunisia to settle in the newly created Israeli state To this day the older generation of Tunisian Israelis continues to rely on storytelling as a form of education entertainment and socialization But for women this art has taken on new dimensions especially as they seek to impart their values to the young Here Esther Schely Newman expertly interweaves the personal accounts of the private lives of four Tunisian Israeli women to analyze the rich complexities of communication She considers how various approaches to narration reflect storytelling as a cultural phenomenon and highlights the need to understand stories in the contexts in which they are told The four narrators grew up in a culture in which women s stories were confined to the private sphere were usually told to other women and were supposedly fiction or at least metaphors masking their real lives Forced migration to farming communities in Israel and the shock of being uprooted created new identities for women and new outlets for storytelling Women narrators increasingly began to tell more openly of their personal lives Schely Newman organizes her narrators accounts by the themes of childhood marriage motherhood immigration and old age and considers a wide range of factors that shape the narration including audience intent choice of language and Jewish Muslim culture The result is a fascinating blend of analysis narration and history

Multiple Case Narrative Asher She?edi,2005-01-01 This book introduces a methodology for the construction of a comprehensive narrative description and narrative based theory from the study of multiple populations The book has two parallel foci On the one hand it is a conceptual treatise focusing on the principles of the Multiple Case Narrative On the other hand it also has a practical how to focus with a step by step guide to conducting a Multiple Case Narrative The book is accessible and comprehensive and

authoritative literate voice of the modern state and the narrative forms used by academic disciplines to represent them to outsiders Pressured by other systems of narrative and truth how do Native peoples use their stories and find them still meaningful in the late twentieth century Why does storytelling continue to thrive What can anthropologists learn from the structure and performance of indigenous narratives to become better academic storytellers themselves Cruikshank addresses these questions by deftly blending the stories gathered from her own fieldwork with interdisciplinary theoretical perspectives on dialogue and storytelling including the insights of Walter Benjamin Mikhail Bakhtin and Harold Innis Her analysis reveals the many ways in which the artistry and structure of storytelling mediate between social action and local knowledge in indigenous northern communities
