Stories from the Round Barn Jacqueline Dougan Jackson, 2000 Using stories anecdotes history and even veterinary science Jackson braids together a series of dramatic fragments and episodes to vividly recreate life on the Dougan dairy farm. Founded in 1911 by W J Dougan near Beloit Wisconsin the Dougan farm with its unusual round barn is symbolic of a vanishing era. A renowned farm which was among the first to introduce many aspects of modern dairying to its operation the Dougan farm eventually became a victim of agribusiness style dairying and was closed. As Jackson recreates the texture and tone of life on the farm larger themes emerge the constant balancing between material life and spirit the quest for humane values within a hard world of business and labor the difficult lessons fundamental to childhood

Round Barns of New York Richard Triumpho, 2004-05-01 This book begins with an intriguing overview of the first five round barns built across America including one in New York State. Elliott Stewart who built the first octagon barn in the Empire State in 1874 is revealed to be a passionate original whose vigorous editorial campaign led to the construction of a dozen such barns. The author next introduces John McArthur who constructed a polygonal sixteen sided double octagon barn so huge it was the biggest in the state and second largest in the nation. Case histories document five other singular New York barns of varying configurations. Abundant photos make these bygone barns spring to life. Floor plans of the earliest barns show why the round shape engaged farmers at the turn of the century. The book also explains why true round barns born of silos surpassed octagon barns in popularity. A special section on seven true round barns in New York offers historical data and rare anecdotes by present owners
