Hope in Pastoral Care and Counseling Andrew D. Lester, 1995-01-01 In this ground breaking book pastoral counselor Andrew Lester demonstrates that pastoral theology as well as social and behavioral sciences has neglected to address effectively the predominant cause of human suffering a lack of hope a sense of futurelessness Lester examines the reasons that pastoral theology and other social and behavioral sciences have overlooked the importance of hope and despair in the past He then offers a starting point for the development of addressing these significant dimensions of human life He provides clinical theories and methods for pastoral assessment of and intervention with those who despair He also puts forth strategies for assessing the future stories of those who despair and offers a corrective to these stories through deconstruction reframing and reconstruction This book will be invaluable to pastoral caregivers who are looking for a vantage point from which to provide care and to pastoral theologians who are seeking to develop a theological lens through which to understand the human condition
