Cultures of Sustainable Peace Hyab Teklehaimanot Yohannes, Alison Phipps, Tawona Sitholé, 2024-12-10 This book shifts the focus of peacebuilding away from nation states and international organisations to make a powerful argument that sustainable peacebuilding is the work of ordinary people It brings together work done in Gaza Ghana Mexico Morocco and Zimbabwe alongside work with refugees in Scotland to argue for a place for successful intercultural relations as a central aim of peacebuilding moving beyond the more usual focus on economic development With a particular emphasis on addressing gender based violence and the role of women in peacebuilding together with a central role for arts and culture as a means of resistance and social change the chapters represent the fruit of collaborative work across geographical and cultural borders between artists activists and academics bringing a wide range of disciplinary perspectives to bear on situations of violence and precarity In a world where peace work can feel increasingly futile this book makes a powerful case for the crucial role of local action and cultural work and play in the creation of a better future The book will be open access under a CC BY ND licence

View Gary Saul Morson, 1987 For decades the formal peculiarities of War and Peace disturbed Russian and Western critics who attributed both the anomalous structure and the literary power of the book to Tolstoy's primitive unruly genius Using that critical history as a starting point this volume recaptures the overwhelming sense of strangeness felt by the work's first readers and thereby illuminates Tolstoy's theoretical and narratological concerns The author demonstrates that the formal peculiarities of War and Peace were deliberate designed to elude what Tolstoy regarded as the falsifying constraints of all narratives both novelistic and historical Developing and challenging the ideas of Mikhail Bakhtin Morson explores Tolstoy's account of the work's composition in light of various myths of the creative process He proposes a theory of creation by potential that incorporates Tolstoy's main concerns the openness of each historical moment the role of chance in history and within narrative patterns and the efficacy of ordinary events hidden in plain view in shaping history and individual psychology In his reading of Tolstoy he demonstrates how we read literary works within the penumbral text of associated theories of creativity **War & Peace**, 1914 *Library of Congress Subject Headings* Library of Congress, 2006
