Stories Of The Modern South:

Stories of the Modern South Various,1995-08-01 Some of the greatest storytellers of our time chronicle twentieth century southern life Rich in irony sly humor and vivid dramatic imagery the literature of the modern South is a vital amalgam of a once rural society s storytelling tradition and the painful contradictions and cultural clashes brought about by rapid change The stories in this collection are as diverse as the region itself yet they are all connected by a shared history and a uniquely southern strain of American language and narrative Contributors include Truman Capote William Faulkner Carson McCullers Flannery O Connor Katherine Anne Porter Alice Walker Eudora Welty and Tennessee Williams Stories of the Modern South Benjamin Forkner,1991-04-01 **Stories of the Modern South** Ben Forkner,Patrick H. and includes original research relating to the literatures of some 50 countries and territories In more than 1 600 entries written by more than 600 internationally recognized scholars it explores the effect of the colonial and post colonial experience on literatures in English worldwide **Inhabited by Stories** Nancy A. Barta-Smith, Danette DiMarco, 2012-11-30 Intertextuality has signaled change appropriation adaptation and derivation It has focused readers on irresolvable questions of influence and origination progressive or regressive movement across continents periods and media Inhabited by Stories Critical Essays on Tales Retold takes a different approach What would a model of literary study look like that steps out of time's river and embraces not only the presence and proximity of the world to the senses but also of the past and the future to the present here and now When stories inhabit us imagination and memory extend our ability to see and feel Phenomenological experience is lived not just thought Such a perspective suggests that the past and future inhabit the present increase the depth of sensory perception itself and enrich the range of our affective and ethical responses Grounded in the lived experience of reading this perspective offers an alternative to an idea of intertextuality as simply following lines of influence and appropriation It focuses on the expansion of experience created by telling and retelling stories Ironically for literary theorists and critics perhaps the highest form of both praise and critique is a tale retold since such retellings attest to literature's instructive power and its perennial regeneration **Telling Stories** , 2021-11-15 The present volume is a highly comprehensive assessment of the postcolonial short story since the thirty six contributions cover most geographical areas concerned Another important feature is that it deals not only with exclusive practitioners of the genre Mansfield Munro but also with well known novelists Achebe Armah Atwood Carey Rushdie so that stimulating comparisons are suggested between shorter and longer works by the same authors In addition the volume is of interest for the study of aspects of orality dialect dance rhythms circularity and trickster figure for instance and of the more or less conflictual relationships between the individual character or implied author and the community Furthermore the marginalized status of women emerges as another major theme both as regards the past for white women settlers or the present for urbanized characters primarily in Africa and India The reader will also have the rare pleasure of discovering Janice Kulik Keefer's Fox her version of what she calls in her commentary displaced autobiography or creative non fiction Lastly an extensive bibliography on the postcolonial short story opens up further possibilities for research **New Orleans Stories** John Miller, Genevieve Morgan, 2004-06-10 Voodoo Vampires Jazz There's no city quite like New Orleans a city that whispers stories and where writers come to eavesdrop New Orleans Stories collects the very best writing on the Big Easy by a stellar gallery of writers for whom the city has played host and muse from Walt Whitman and William Faulkner to Anne Rice Truman Capote Walker Percy Tennessee Williams and Zora Neale Hurston With a striking new cover this anthology captures the vibrancy and variety of New Orleans as it casts its most seductive spell Southern Farmers and Their Stories Melissa Walker, 2006-09-01 The industrial expansion of the twentieth century brought with it a profound shift away from traditional agricultural modes and practices in

the American South The forces of economic modernity specialization mechanization and improved efficiency swept through southern farm communities leaving significant upheaval in their wake In an attempt to comprehend the complexities of the present and prepare for the uncertainties of the future many southern farmers searched for order and meaning in their memories of the past In *Southern Farmers and Their Stories* Melissa Walker explores the ways in which a diverse array of farmers remember and recount the past The book tells the story of the modernization of the South in the voices of those most affected by the decline of traditional ways of life and work Walker analyzes the recurring patterns in their narratives of change and loss filling in gaps left by more conventional political and economic histories of southern agriculture *Southern Farmers and Their Stories* also highlights the tensions inherent in the relationship between history and memory Walker employs the concept of communities of memory to describe the shared sense of the past among southern farmers History and memory converge and shape one another in communities of memory through an ongoing process in which shared meanings emerge through an elaborate alchemy of recollection and interpretation In her careful analysis of more than five hundred oral history narratives Walker allows silenced voices to be heard and forgotten versions of the past to be reconsidered *Southern Farmers and Their Stories* preserves the shared memories and meanings of southern agricultural communities not merely for their own sake but for the potential benefit of a region a nation and a world that has much to learn from the lessons of previous generations of agricultural providers

Stories of Shiva's Saints Gil Ben-Herut, Professor Department of Religious Studies Gil Ben-Herut, Former Director of the Institute of Kannada Studies R V S Sundaram, 2025-08-08 The Kannada language boasts an ongoing literary tradition spanning more than a millennium with a rich array of social positions and roles religious traditions and poetic styles that developed over the dramatic history of the region Yet translations from premodern Kannada to English have been inconsistent with only a handful of works that have endured *Stories of Shiva's Saints* is the first English translation of selected stories from a thirteenth century text by Hampeya Harihara that sheds light on the rapid spread of Shiva devotion in the region through edified biographies of figures who lived a few decades earlier and the stories historical significance is matched by their gripping plots and emotional expressivity

Blood on the Page Lizzy Attree, 2010-03-08 The fourteen interviews in this book form an unprecedented wealth of material on authors responses to HIV AIDS in South Africa and Zimbabwe They comprise a valuable archive which documents and contextualises the variety of views and opinions of different authors on their often ground breaking choices in writing about HIV AIDS Each author ranks among the first to publish fiction on HIV AIDS in their respective countries These interviews are of particular merit as these issues have not been discussed at length with any of the authors before Collectively they offer a unique range of approaches and opinions in response to the HIV AIDS pandemic in southern Africa Their significance lies in their specific literary as well as their broader social cultural and political perspectives on a disease which continues to spread despite extensive NGO medical and government intervention In both South Africa and Zimbabwe government responses have failed to address the

urgent need for new political and economic solutions to the challenge of HIV infection Responses among the population have varied from widespread silence shame and fear to political activism and outspoken critiques of government inaction Writers give voice to this silence and contextualise the disparate reactions amongst diverse peoples Globally AIDS killed approximately 2 million in 2008 In 1998 AIDS was the largest killer in southern Africa nearly double the one million deaths from malaria and eight times the 209 000 deaths from tuberculosis It has long been the case that of those dying globally of AIDS the majority live in southern Africa When the associated social and cultural implications of infection with HIV are considered fictional representations contribute significantly to our understanding of the impact of HIV AIDS on communities and individuals and provide a much needed basis for humanising an epidemic which is unimaginable statistically It has been said that the feelings and reactions that HIV AIDS inspires are often too unreal for words and it is this very notion that certain diseases are taboo unmentionable and hardly even named as such that makes verbalisation of this epidemic a modern imperative

Economic Stories For Undergrads Annavajhula J. C. Bose, 2022-05-10 Economics is the strangest and most dubious as also frustrating animal of social sciences and humanities The debate on what it is and what its strengths and weaknesses are in understanding and changing the economy and society for the better is never ending This book cuts through this noise for econ undergrads with social concerns It is crafted to be stuffed with peripatetic hops skips and intellectual and emotional jumps about the nature and character of the brain circuits of economics in terms of its methodological political sociological anthropological historical feminist ethical ecological spiritual literary technical corporate and other underpinnings Diverse stories are told as alerts or nudges for the undergrads who as aspirant youth have in general hyperbolic discounting attitude towards social change The mind and heart of the undergrad reading this book will hopefully be ignited so as to endeavour to find out the purpose of economic education and how economics should be learnt in order to rectify the failures of our current socio economic system The seriously academic undergrad may also be inspired to pursue the long range objective of doing integrated studies and research for maximised understanding and holistic policy making which is of course easier to say than do
