Addressing the Challenges in Communicating Climate Change Across Various Audiences Walter Leal Filho, Bettina Lackner, Henry McGhie, 2018-10-02 This book offers a concrete contribution towards a better understanding of climate change communication. It ultimately helps to catalyse the sort of cross-sectoral action needed to address the phenomenon of climate change and its many consequences. There is a perceived need to foster a better understanding of what climate change is and to identify approaches, processes, methods, and tools which may help to better communicate it. There is also a need for successful examples showing how communication can take place across society and stakeholders. Addressing the challenges in communicating to various audiences and providing a platform for reflections, it showcases lessons learnt from research field projects and best practices in various settings in various different countries.
