is a mess He's fat broke middle aged and unemployed His anarchist son hates him and his wife has taken a younger lover and thrown Carlo out of the house In fact the only one who doesn't consider him contemptible and ridiculous seems to be Carlo's adoring overweight daughter who is almost as pathetic as he is Even his affair with a twenty two year old nymphomaniac is strangely unsatisfying Then just as he's reaching his lowest point the self-styled Ultimate Human Irrelevancy is offered a golden opportunity to grab a piece of the American Dream thanks to the reappearance of his old school chum Bob Sweet Bob who has a gift for success is inviting Reinhart to get in on the ground floor of his latest venture cryonics But while Carlo loves the taste of the good life that his friend has suddenly provided he's not quite certain whether Sweet wants him as a partner or as a human popsicle The third novel in Thomas Berger's acclaimed Carlo Reinhart Series *Vital Parts* is a stingingly hilarious swipe at twentieth century culture and mores Unrestrained and unapologetic it is a tour de force from a master satirist that stands alongside Joseph Heller's *Catch 22* John Kennedy Toole's *A Confederacy of Dunces* and the novels of Kurt Vonnegut as a trenchant and funny comment on American life

Proclaim the Wonder Scott Hoezee,2019-07-11 Does the rise of science imply the decline of faith Should preachers protect their flocks from the inroads of scientific naturalism Or is an informed scientific view of the universe compatible with Christian belief even a strong source of support for it This world belongs to God and the pulpit is a crucial vehicle for celebrating science's contribution to the understanding of creation Beginning with a defense of the authority of Scripture Scott Hoezee distinguishes between science as a physical field of inquiry and scientific naturalism which often turns science into an atheistic religious or philosophical point of view After

establishing the fact that there is no necessary clash between theology and science Hoezee summarizes some of the more recent discoveries in the fields of physics and cosmology as well as current ideas about the biological and mental nature of human beings He highlights intriguing scientific facts and points to the theological interpretations that can be drawn from them Proclaim the Wonder offers specific suggestions and strategies for integrating science into preaching and provides sample sermons based on key biblical texts
