Albrecht,1999-12-01 Rites in the Spirit is a book about spirituality ritual and Pentecostal experience The volume presents a careful and innovative study of Pentecostal practices and experiences Focusing on the very important but often intriguing worship rites that express the spirituality of Pentecostals Albrecht discovers that these Pentecostal charismatic rites and their attending sensibilities also function to shape nurture authenticate and even transform the spiritual lives of these Christians Rites in the Spirit seeks to guide Pentecostals and the charismatically inclined toward self interpretation and a more nuanced conception of and a deeper appreciation for their Pentecostal experience The volume also aims to make a sometimes exotic spirituality more accessible and understandable to those who have had limited contact with Pentecostal charismatic forms and expressions The Elusive Eden Richard B. Tsu,2019-09-13 California is a region of rich geographic and human diversity The Elusive Eden charts the historical development of California beginning with landscape and climate and the development of Native cultures and continues through the election of Governor Gavin Newsom It portrays a land of remarkable richness and complexity settled by waves of people with diverse cultures from around the world Now in its fifth edition this up to date text provides an authoritative original and balanced survey of California history incorporating the latest scholarship Coverage includes new material on political upheavals the global

Etulain, University of New Mexico. Center for the Southwest, 2004 The life stories of many individuals are woven together to tell the history of the American West from the earliest days of westward expansion to the twentieth century *The Mirage Factory* Gary Krist, 2019-05-14 From bestselling author Gary Krist the story of the metropolis that never should have been and the visionaries who dreamed it into reality Little more than a century ago the southern coast of California bone dry harbor less isolated by deserts and mountain ranges seemed destined to remain scrappy farmland Then as if overnight one of the world's iconic cities emerged At the heart of Los Angeles meteoric rise were three flawed visionaries William Mulholland an immigrant ditch digger turned self taught engineer designed the massive aqueduct that would make urban life here possible D W Griffith who transformed the motion picture from a vaudeville house novelty into a cornerstone of American culture gave L A its signature industry And Aimee Semple McPherson a charismatic evangelist who founded a religion cemented the city's identity as a center for spiritual exploration All were masters of their craft but also illusionists of a kind The images they conjured up of a blossoming city in the desert of a factory of celluloid dreamworks of a community of seekers finding personal salvation under the California sun were like mirages liable to evaporate on closer inspection All three would pay a steep price to realize these dreams in a crescendo of hubris scandal and catastrophic failure of design that threatened to topple each of their personal empires Yet when the dust settled the mirage that was LA remained Spanning the years from 1900 to 1930 *The Mirage Factory* is the enthralling tale of an improbable city and the people who willed it into existence by pushing the limits of human engineering and imagination **America's Alternative Religions** Timothy Miller, 1995-07-01 This is a single volume source of reliable information on the most important alternative religions covering for each such essentials as history theology impact on the culture and current status The chapters of the book were written by experts who study the movements they have written about *Religion in the Modern American West* Ferenc Morton Szasz, 2002-01-01 When Americans migrated west they carried with them not only their hopes for better lives but their religious traditions as

well Yet the importance of religion in the forging of a western identity has seldom been examined In this first historical overview of religion in the modern American West Ferenc Szasz shows the important role that organized religion played in the shaping of the region from the late nineteenth to late twentieth century He traces the major faiths over that time span analyzes the distinctive response of western religious institutions to national events and shows how western cities became homes to a variety of organized faiths that cast only faint shadows back east While many historians have minimized the importance of religion for the region Szasz maintains that it lies at the very heart of the western experience From the 1890s to the 1920s churches and synagogues created institutions such as schools and hospitals that shaped their local communities during the Great Depression the Latter day Saints introduced their innovative social welfare system and in later years Pentecostal groups carried their traditions to the Pacific coast and Southern Baptists among others set out in earnest to evangelize the Far West Beginning in the 1960s the arrival of Asian faiths the revitalization of evangelical Protestantism the ferment of post Vatican II Catholicism the rediscovery of Native American spirituality and the emergence of New Age sects combined to make western cities such as Los Angeles and San Francisco among the most religiously pluralistic in the world Examining the careers of key figures in western religion from Rabbi William Friedman to Reverend Robert H Schuller Szasz balances specific and general trends to weave the story of religion into a wider social and cultural context Religion in the Modern American West calls attention to an often overlooked facet of regional history and broadens our understanding of the American experience

Charisma and Religious War in America Taso G. Lagos, 2020-10-06 The most interesting vibrant and booming city in 1920s America was Los Angeles Tens of thousands of new folks annually flocked to the City of Angels to enjoy its balmy year round pleasant weather The site of new industries including oil and technology companies and Hollywood film studios it sparked another important and thriving but less known sector the city's expanding religious communities As hard as it is for many to connect LA to religious matters few cities gave more impetus to spiritual innovation than this idyllic Southern California metropolis No two figures shaped this movement more than Sister Aimee Semple McPherson and Reverend Robert Fighting Bob Shuler Both were newcomers solidly within the Protestant faith and both reached heights of unparalleled publicity and notoriety in the country yet each despised the other even while professing faith obedience and fealty to the same Christ This is their story told from their hard scrabble beginnings through to their popular ministries that deeply moved so many lives even as their interpretation of religious commitment sparked a holy war between them More entertaining than any boxing match this war stimulated the growth and development of American Christianity that dominates religious and increasingly material existence in the United States This is the first published biography of Rev Shuler a less well known figure in American Protestant history but whose own tale fighting sin and corruption of Los Angeles is nothing short of epic

The Art of the Public Grovel Susan Wise Bauer, 2016-06-28 Whether you are a politician caught carrying on with an intern or a minister photographed with a prostitute discovery does not necessarily spell the end of your

public career Admit your sins carefully using the essential elements of an evangelical confession identified by Susan Wise Bauer in *The Art of the Public Grovel* and you like Bill Clinton just might survive In this fascinating and important history of public confession in modern America Bauer explains why and how a type of confession that first arose among nineteenth century evangelicals has today become the required form for any successful public admission of wrongdoing even when the wrongdoer has no connection with evangelicalism and the context is thoroughly secular She shows how Protestant revivalism group psychotherapy and the advent of talk TV combined to turn evangelical style confession into a mainstream secular rite Those who master the form Bill Clinton Jimmy Swaggart David Vitter and Ted Haggard have a chance of surviving and even thriving while those who don't Ted Kennedy Jim Bakker Cardinal Bernard Law Mark Foley and Eliot Spitzer will never really recover Revealing the rhetoric theology and history that lie behind every successful public plea for forgiveness *The Art of the Public Grovel* will interest anyone who has ever wondered why Clinton is still popular while Bakker fell out of public view Ted Kennedy never got to be president and Law moved to Rome *Women Public Speakers in the United States, 1925-1993* Karlyn Kohrs Campbell, 1994-06-30 This volume the second of two companion biographical dictionaries provides extensive entries on 31 women orators active since 1925 It covers women with distinguished political careers such as Clare Boothe Luce Frances Perkins and Ann Willis Richards women with important scientific careers such as Rachel Carson and Helen Broinowski Caldicott and women with religious careers such as Dorothy Day and Pauli Murray It includes extraordinary women such as Helen Keller and Eleanor Roosevelt and women who have been active in the women's movement as well as those such as Phyllis Schlafly who have been actively anti feminist Each entry provides brief biographical information focuses on an analysis of the subject's rhetoric and concludes with information on sources *The Scopes Trial* Randy Moore, Susan E. Motors As Klein follows the careers of these men he shows us how the financial house of cards gradually grew taller as the irrational exuberance of an earlier age gripped America and convinced us that the market would continue to rise forever Then in October 1929 came a perfect storm like convergence of factors that shook Wall Street to its foundations We relive Black Thursday when police lined Wall Street brokers grew hysterical customers bellowed like lunatics and the ticker tape fell hours behind This compelling history of the Crash the first to follow the market closely for the two years leading up to the disaster illuminates a major turning point in our history
