Storming the Eagle's Nest Jim Ring, 2013-09-03 From the Fall of France in June 1940 to Hitler's suicide in April 1945 the swastika flew from the peaks of the High Savoy in the western Alps to the passes above Ljubljana in the east The Alps as much as Berlin were the heart of the Third Reich Yes Hitler declared of his headquarters in the Bavarian Alps I have a close link to this mountain Much was done there came about and ended there those were the best times of my life My great plans were forged there With great authority and verve Jim Ring tells the story of how the war was conceived and directed from the Fuhrer's mountain retreat how all the Alps bar Switzerland fell to Fascism and how Switzerland herself became the Nazi's banker and Europe's spy centre How the Alps in France Italy and Yugoslavia became cradles of resistance how the range proved both a sanctuary and a death trap for Europe's Jews and how the whole war culminated in the Allies' descent on what was rumoured to be Hitler's Alpine Redoubt a Bavarian mountain fortress *Nazi History and the Holocaust*, 1999

To the Threshold of Power, 1922/33 MacGregor Knox, 2007-09-10 *To the Threshold of Power* is the first volume of a two part work that seeks to explain the origins and dynamics of the Fascist and National Socialist dictatorships It lays a foundation for understanding the Nazi and Fascist regimes through parallel investigations of Italian and German society institutions and national myths the supreme test of the First World War and the post 1918 struggles from which the Fascist and National Socialist movements emerged It emphasizes two principal sources of movement the nationalist mythology of the intellectuals and the institutional culture and agendas of the two armies especially the Imperial German Army and its Reichswehr successor The book's climax is the cataclysm of 1914-18 and the rise and triumph of militarily organized radical nationalist movements Mussolini's *Fasci di combattimento* and Hitler's National Socialist German Workers Party dedicated to the perpetuation of the war and the overthrow of the post 1918 world order

Third Reich Martin Kitchen, 2011-10-24 Seventy years have passed since Adolf Hitler was appointed Chancellor and in the intervening years a vast amount has been written on the origins and nature of the Third Reich The years from 1933 to 1945 cast such a grim shadow that the moral ethical and religious elements embedded in the narrative are such that the subject still resists treatment as part of a historical past Fierce debates still rage over both the how and why of these terrible events In this concise and accessible account Martin Kitchen addresses the major issues how did Hitler come to power How was the Nazi dictatorship established What was the essential nature of the regime What were the reasons for Hitler's extraordinary

popularity Why did Germany go to war What led to the Holocaust What was the legacy of National Socialism

Forthcoming Books Rose Army, 1989-05 **War Movies and Economics** Laura J. Ahlstrom, Franklin G. Mixon, Jr., 2020-05-20 War Movies and Economics Lessons from Hollywood's Adaptations of Military Conflict applies ongoing research in the relatively new genre of economics in popular media to Hollywood's war movies Whether inadvertently or purposefully these movies provide numerous examples of how economic principles often play an important role in military conflict The authors of the chapters included in this edited collection work to illustrate economics lessons portrayed in adaptations such as Band of Brothers Conspiracy The Dirty Dozen Dunkirk Memphis Belle Saving Private Ryan Schindler's List Spartacus Stalag 17 and Valkyrie Aspects of these stories show how key economic principles of scarcity limited resources and incentives play important roles in military conflict The movies also provide an avenue for discussion of the economics of public goods provision the modern economic theory of bureaucracy and various game theoretic concepts such as strategic moves and commitment devices Where applicable lessons from closely related fields such as management are also provided This book is ideal reading for students of economics looking for an approachable route to understanding basic principles of economics and game theory It is also accessible to amateur and professional historians and any reader interested in popular culture as it relates to television movies and military history A Terrible Efficiency Franklin G. Mixon, Jr., 2019-08-24 This book provides numerous examples that apply the modern theory of bureaucracy developed in Breton and Wintrobe 1982 and 1986 to the Nazi Holocaust More specifically the book argues as do Breton and Wintrobe 1986 that the subordinates in the Nazi bureaucracy were not following orders as they claimed during the war crimes trials at Nuremberg and elsewhere but were instead exhibiting an entrepreneurial spirit in competing with one another in order to find the most efficient way of exacting the Final Solution This involved engaging in a process of exchange with their superiors wherein the subordinates offered the kinds of informal services that are not codified in formal contracts In doing so they were competing for the rewards or informal payments not codified in formal contracts that were conferred by those at the top of the bureaucracy These came in the form of rapid promotion perquisites pecuniary and in kind and other awards The types of exchanges described above are based on trust not formal institutions *Literature and Film in the Third Reich* Karl-Heinz Schoeps, 2004 This book is the first survey in English of literature and film in Nazi Germany It treats not only works sympathetic to National Socialism but also works of the so called Inner Emigration of the resistance and those written in prisons and concentration camps Much of this literature is not easily accessible in German and not available at all in English translation Historical and ideological context is provided in chapters covering influential works of the time such as Alfred Rosenberg's *The Myth of the Twentieth Century* and Houston Stewart Chamberlain's *The Foundations of the Nineteenth Century* Schoeps also analyzes Nazi cultural policies fascist histories of literature and the role of German studies and Germanists in the Nazi movement A major section of the book is devoted to film then a relatively new medium of

communication whose propaganda value was clearly recognized by Goebbels the minister for propaganda and president of the Reich's Chamber of Culture One of the most interesting areas of research in recent years is the relationship between Hitler's cultural commissars in particular Goebbels and the literature and film production of the Nazi years This book is based on the revised and expanded second German edition *Literatur im Dritten Reich* 1933 1945 but has again been revised and expanded especially the chapter on film and Nazi policies toward the film industry The chapter on cultural policies has also been expanded to include Himmler's efforts to meddle in this area New also are sections dealing with Jewish entertainers in concentration camps for example Kurt Gerron and activities of the Jewish Cultural League Karl Heinz Schoeps is professor of German at the University of Illinois at Urbana Champaign

Twilight Memories Andreas Huyssen, 2012-11-12 In this new collection of essays on memory and amnesia in the postmodern world cultural critic Andreas Huyssen considers how nationalism literature art politics and the media are obsessed with the past The great paradox of our fin de siècle culture is that novelty is even more associated with memory than with future expectation Drawing heavily on the dilemmas of contemporary Germany Huyssen's discussion of cultural memory illustrates the nature of contemporary nationalism the work of such artists and thinkers as Anselm Kiefer Alexander Kluge and Jean Baudrillard and many others The book includes illustrations from contemporary Germany

The Dictators R. J. Overy, 2004 Overy gives readers an absorbing study of Hitler and Stalin ranging from their private and public selves their ascents to power and consolidation of absolute rule to their waging of massive war and creation of far flung empires of camps and prisons
