Storming Heaven Steve Wright, 2017 **Storming Heaven** Steve Wright, 2017 A history of Italian workerist theory taking in Antonio Negri Mario Tronti and Sergio Bologna Storming Heaven Steve Wright, 2002-02-20 Storming Heaven is the first comprehensive survey of Italian autonomist theory from its origins in the anti stalinist and workerist left of the 1950s to its heyday twenty years later Autonomist marxism was a political tendency which privileged themes self organisation construction of identity grassroots politics subjects in struggle which in many ways can be seen as the precursor of today s debates around direct action protest Emphasising the dynamic nature of class struggle as the distinguishing feature of autonomist thought Wright explores how its understanding of class politics developed alongside emerging social movements Offering a critical and historical exploration of the tendency s emergence in postwar Italy Storming Heaven moves beyond the crisis of traditional analytical frameworks on the left and assesses the strengths and limitations of autonomist marxism as first developed by Antonio Negri Mario Tronti Sergio Bologna and others Politics of the Many Benjamin Halligan, Alexei Penzin, Stefano Pippa, Rebecca Carson, 2021-09-09 Politics of the Many draws inspiration from Percy Bysshe Shelley s celebrated call to arms Ye are many they are few This idea of the Many as a general form of emancipatory subjectivity that cannot be erased for the sake of the One is the philosophical and political assumption shared by contributors to this book They raise questions of collective agency and its crisis in contemporary capitalism via new engagements with Marxist philosophy psychoanalysis theories of social reproduction and value form and post colonial critiques and drawing on activist thought and strategies This book interrogates both established and emergent formations of the Many the people classes publics crowds masses multitudes tracing their genealogies their recent failures and victories and their potentials to change the world The book proposes and explores an intense and provoking series of new or reinvented concepts figures and theoretical constellations including dividuality the centaur unintentional vanguard insomnia at work always on capitalism multitude from its voiding to a non emergence crowds necropolitics and the link between political subjectivity and value form The contributors to Politics of the Many are both acclaimed and emergent thinkers including Carina Brand Rebecca Carson Luhuna Carvalho Lorenzo Chiesa Jodi Dean Dario Gentili Benjamin Halligan Marc James L ger Paul Mazzocchi Alexei Penzin Stefano Pippa Gerald Raunig and Stephen Shukaitis **Adam Smith in Beijing** Giovanni Arrighi, 2020-05-05 In the late eighteenth century the political economist Adam Smith predicted an eventual equalization of power between the West and the territories it had conquered In this magisterial new work Giovanni Arrighi shows how China s extraordinary rise invites us to reassess radically the conventional reading of The Wealth of Nations He examines how recent US attempts to create the first truly global empire were conceived to counter China s spectacular economic success Now America s disastrous failure in Iraq has made the People s Republic of China the true winner in the US War on Terror China may soon become again the kind of noncapitalist market economy that Smith described an event that will reconfigure world trade and the global balance

of power **Italian Operaismo** Gigi Roggero, 2023-03-28 An accessible introductory presentation of operaismo one of the most important revolutionary theories and praxes of the twentieth century Operaismo is a Machiavellian return to first principles it is a return to Marx against Marxism against its tradition of determinism historicism and objectivism Operaismo isn't a heresy within the Marxist family it is a rupture with that family extract from Italian Operaismo This accessible introductory presentation of operaismo or workerism in English arms readers with a deeper understanding of the concepts context and history of one of the most important revolutionary theories and praxes of the twentieth century While the ideas of some of its proponents above all Antonio Negri have circulated widely in the English speaking world over the past twenty years rather less is known about the context from which and against which these perspectives originally emerged Gigi Roggero here introduces that broader workerist project and examines how its various analyses of modern social structures and the possibility for changing them related to a potent social movement in Italy during the 1960s and 1970s Italian Operaismo provides a clear overview of the central moments in that tendency's development from the Italian labor movement's crisis of direction in the 1950s the encounter with the new forces within the working class at FIAT and elsewhere in the early 1960s and the political journals Quaderni rossi and Classe operaia to the experience of Potere Operaio and other organizations a decade later For readers more familiar with this story the book provides a rereading of operaismo that is both salutary and provocative one that stresses above all the role within it of subjectivity and political engagement demonstrating the continued relevance of its subversive method as a tool for reworking the categories of radical and revolutionary thought This book will serve as a compact essential work on how to go about eliminating the gap between theory and practice **Work and Alienation in the Platform Economy** Sarrah Kassem, 2023-02-28 Once hidden behind the veils of entrepreneurship it is now clear that platforms are reshaping the world of work and Amazon has been a forerunner in setting the trend This book examines two key and contrasting Amazon platforms that differ in how they organize workers its e-commerce platform and digital labor platform Mechanical Turk With access to the people who are working at the heart of these platforms it explores how different working conditions alienate workers and how despite these conditions workers organize within their political economic contexts to express their agency in traditional and alternative ways Written for social scientists studying and researching the platform economy this is a timely and important analysis of work and workers on the digital shop floor ***The Mask and the Flag*** Paolo Gerbaudo, 2017-05-15 The populist turn to street protest and the reasons behind its global resurgence are the twin themes of this timely analysis **The ^AOxford Handbook of Karl Marx** Matt Vidal, Tony Smith, Tomás Rotta, Paul Prew, 2019-03-26 The Oxford Handbook of Karl Marx provides an entry point for scholars and students new to Marxism At the same time its chapters written by leading Marxist scholars advance Marxist theory and research Its coverage is more comprehensive than previous volumes on Marx in terms of both foundational concepts and state of the art empirical research on contemporary social problems It also provides equal space to sociologists economists

and political scientists with substantial contributions from philosophers historians and geographers

Critiquing Capitalism Today Frederick Harry Pitts, 2017-10-17 This book critically introduces two compelling contemporary schools of Marxian thought the New Reading of Marx of Michael Heinrich and Werner Bonefeld and the postoperaismo of Antonio Negri Each stake novel claims on Marx s value theory the first revisiting key categories of the critique of political economy through Frankfurt School critical theory the second calling the law of value into crisis with reference to Marx s rediscovered Fragment on Machines Today postcapitalist conceptualisations of a changing workplace excite interest in postoperaist projections of a crisis of measurability sparked by so called immaterial labour Using the New Reading of Marx to question this prospectus Critiquing Capitalism Today clarifies complex debates for newcomers to these cutting edge currents of critical thought looking anew at value money labour class and crisis

Time for Revolution Antonio Negri, 2013-04-25 Antonio Negri wrote the two essays that comprise Time for Revolution while serving a prison sentence for alleged involvement with radical left wing groups Although the essays were written two decades apart their concerns are the same is there a place for resistance in a society utterly subsumed by capitalism In the wake of the global crisis of capitalism heralded by the 2008 crash the question has never been more relevant and Negri remains an insightful and passionate guide to any attempt to answer it

political legitimacy which indicates how it is possible to move beyond liberal democracy whilst avoiding the authoritarian turn of state socialism. Schechter points out the weaknesses of the many extra legal accounts of non formal legitimacy now on offer such as those based on friendship and identity. He then argues that the first step beyond hegemony depends on the discovery of forms of legitimate legality and demonstrates why the conditions of legitimate law can be identified.

Experimental Politics and the Making of Worlds Anja Kanngieser, 2016-04-15 Creative strategies have been central to global social movements. From the theatrics of the 1999 Seattle protests to the rebel clowns at the 2005 G8 summit in Gleneagles and the antics of the Yes Men, the crossovers between art and politics have increasingly become more visible and prolific. This book explores an innovative form of creative and communicative politics: the performative encounter as a strategy for facilitating new ways of being, relating and making worlds. Unlike existing scholarship that frames such encounters in artistic or cultural terms, this book analyzes performative encounters through an organizational lens to accentuate their social political potential, engaging a wealth of material from autonomist philosophy, political science, performance studies, geography and social movement texts. Intertwining conceptual and ethnographic research, it uniquely maps out one narrative of the encounter, tracing a line through the twentieth century from the Berlin Dadaists to the Situationist International to several contemporary German collectives and campaigns, showing how performative encounters intervene in global and local issues such as the privatization of public space and resources, human mobility and the corporatization of education.

Humour and Social Protest Marjolein 't Hart, Dennis Bos, 2007 The seventeen essays in this book examine the power of humour in framing social and political protest.

The Spectacle 2.0 Marco Briziarelli, Emiliana Armano, 2017-12-17 Spectacle 2.0 recasts Debord's theory of spectacle within the frame of 21st century digital capitalism. It offers a reassessment of Debord's original notion of Spectacle from the late 1960s to its posterior revisitation in the 1990s and it presents a reinterpretation of the concept within the scenario of contemporary informational capitalism and more specifically of digital and media labour. It is argued that the Spectacle 2.0 form operates as the interactive network that links through one singular but contradictory language and various imaginaries, uniting diverse productive contexts such as logistics, finance, new media and urbanism. Spectacle 2.0 thus colonizes most spheres of social life by processes of commodification, exploitation and reification. Diverse contributors consider the topic within the book's two main sections. Part I conceptualizes and historicizes the Spectacle in the context of informational capitalism; contributions in Part II offer empirical cases that historicise the Spectacle in relation to the present and recent past, showing how a Spectacle 2.0 approach can illuminate and deconstruct specific aspects of contemporary social reality. All contributions included in this book rework the category of the Spectacle to present a stimulating compendium of theoretical critical literature in the fields of media and labour studies. In the era of the gig economy, highly mediated content and President Trump, Debord's concept is arguably more relevant than ever.
