How to Tell Stories to Children Sara Cone Bryant, 1905 The stories which are given in the following pages are for

the most part those which I have found to be best liked by the children to whom I have told these and others I have tried to reproduce the form in which I actually tell them although that invariably varies with every repetition feeling that it would be of greater value to another story teller than a more closely literary form My hope is that this book may be of use to those who have much to do with children Preface How to Tell Stories to Children, and Some Stories to Tell Sara Cone

Bryant,2022-06-02 Sara Cone Bryant's seminal work *How to Tell Stories to Children and Some Stories to Tell* weaves together pedagogical wisdom with the enchanting world of children's literature Within its pages Bryant elucidates the artistry behind storytelling delving into principles and techniques often overlooked yet vital for captivating a young audience The literary style of this book is instructional yet infused with warmth mirroring the tenderness of the intended storytelling encounters Each chapter progresses with a clear thoughtful exposition of storytelling methods while also situating itself in early 20th century literary context when the oral tradition began to be considered as a structured educational approach Sara Cone Bryant an educator and author infused her book with experiences gleaned from her extensive career in teaching Her passionate belief in the transformative power of storytelling in the development of children's cognitive and emotional intelligences shines through the text The theories she presents are not abstract but rooted in her observations and interactions with children reflecting a deep understanding of their imaginative capacities and the nuances of communicating effectively with them This book is recommended not only for educators and parents seeking to enrich the minds and hearts of children but also for anyone interested in the timeless craft of storytelling Bryant offers a treasure trove of short vibrant tales ready to be brought to life alongside an insightful guide to doing so with grace and impact Her work is a resonant reminder of the profound simplicity in connecting with a child through a well told story *The Art of the StoryTeller* Marie

Story-telling, Questioning and Studying, Three School Arts Herman Harrell Horne,1916 How to Tell Stories to Children Sara Cone Bryant,2009-05-01 One might assume that anyone can make up a story on the spot that will hold the attention of a group of children but in reality that's not the case To really capture the imagination of an audience of young people special attention has to be paid to narrative structure storytelling conventions and embellishments In *How to Tell Stories to Children* Sara Cone Bryant offers a treasure trove of practical tips to would be storytellers Great for parents

teachers caregivers and others who want to hold their audience spellbound *Telling Stories Differently* Janet Condry, 2015-09-01 The aim of this book is to share a relatively loose collection of studies using digital storytelling as a pedagogical tool in Cape Peninsula University of Technology CPUT The book takes an informed social justice approach to teaching and learning at the heart of which is the exploration of DST as a practice of voice and agency Voice and agency are important in excavating and recovering subjugated identities and moving the concerns of those occupying subaltern spaces to the mainstream of teaching and learning Yet this discursive shift is not without inherent challenges Multi modal technologies are reflective of wider inequities in the so called technological divide Whilst this is a book about higher education there are important lessons for schooling On the one hand the book is a powerful demonstration of the potential of DST for enhancing learning in schools particularly in schools serving the poor and marginalised On the other hand improving teaching and learning in higher education through the creative use of technology is essential to overcome the learning challenges of those entering tertiary level institutions *How Art Works* DK, 2022-10-11 What goes into creating art How can we learn to read paintings What are the key elements of composition An art ebook like no other How Art Works uses practical graphics to demonstrate the techniques styles materials and concepts that lie behind great art It shows you how to interpret paintings drawings and sculptures and reveals how art is made laying out the key techniques and materials in visual detail It also explains the nuts and bolts of the technical aspects behind art such as perspective and composition and shows how to identify major artistic styles and movements Providing all you need to know to build on your artistic understanding and appreciation this is the perfect book for art lovers and for anyone who wants to know more about art but isn't sure where to begin **Telling Stories** , 2021-11-15 The present volume is a highly comprehensive assessment of the postcolonial short story since the thirty six contributions cover most geographical areas concerned Another important feature is that it deals not only with exclusive practitioners of the genre Mansfield Munro but also with well known novelists Achebe Armah Atwood Carey Rushdie so that stimulating comparisons are suggested between shorter and longer works by the same authors In addition the volume is of interest for the study of aspects of orality dialect dance rhythms circularity and trickster figure for instance and of the more or less conflictual relationships between the individual character or implied author and the community Furthermore the marginalized status of women emerges as another major theme both as regards the past for white women settlers or the present for urbanized characters primarily in Africa and India The reader will also have the rare pleasure of discovering Janice Kulik Keefer's Fox her version of what she calls in her commentary displaced autobiography or creative non fiction Lastly an extensive bibliography on the postcolonial short story opens up further possibilities for research *The Art of Story-telling* Julia Darrow Cowles, 1916 **The Bay View Magazine** , 1914 **Story Telling** Edna Lyman Scott, 1923 *Preaching that Shows* Margaret Cooling, 2022-04-25 For many years the resolution plot has dominated homiletical theory made most famous by the Lowry Loop a staple of preaching theory for today's ministry student Whilst the

approach is important some have accused resolution plot of leaving little room for ambiguity and failing to reflect the messy reality of life Offering a ground breaking approach as a counter to well worn preaching strategies *Preaching That Shows* explores the revelatory plot focused more on the gradual revelation of relevant truths within the biblical text through character and embodied insight and through imaginative and sensory detail rather than through answering the questions how and why It will prove an invaluable resource for students homiletics and preachers alike *Children's Stories and how to Tell Them* Woutrina A. Bone, 1924 Explores the origins of myths folk tales and fairy lore introduces the techniques for effective story telling picture making and word choosing and includes several brief fictional selections Google Books
