

CHEATING AT CARDS

You will probably be asked if you can cheat at cards. Here is a perfect trick that makes it appear as if you have great skill at card cheating. This is simple to do because it's automatic.

EFFECT: You give a demonstration of cheating at cards, dealing out five poker hands of five cards each. You show how you can deal yourself the four Aces from the bottom of the deck. You repeat this, and end up with a royal flush!

NEEDED: A deck of cards.

SECRET AND SETUP: The secret is a little setup at the beginning, in which you place the Ten, Jack, Queen, and King of Spades on top of the deck. When you deal the cards for the first part of the demonstration, you are setting up for the second part, with the royal flush cards in the required positions, every fifth card. It's mathematical but so subtle that even magicians don't realize the method.

STEP 1: Take the deck with the secret setup on top and spread the cards with the faces toward you. Say, "Let me show you how a card shark can cheat at cards. First, you need to find the four Aces." Spread the deck facing in your hands and look for the four Aces. When you come to the Aces, slip them to the face, or bottom, of the deck, with the Ace of Spades on the very bottom. You do this quickly, but don't spread the cards at the very top of the deck and reveal the setup.

STEP 2: Holding the deck facing, spread the bottom four cards to display the four Aces, as shown in the Step 1 illustration. Remember that the Ace of Spades must be at the face.

STEP 3: Say, "The card shark can cheat using a technique called 'bottom dealing.' The cards he deals are on the bottom of the deck, and he has the skill to deal those cards to himself without the other players noticing. This takes a lot of practice." Square up the deck and turn it face-down, holding it in the dealing position in your left hand. You are going to demonstrate "bottom dealing." Continue, "Let's say there are five poker players, and the card shark is dealing." Deal a five-handed round of poker, dealing the last card to yourself. You deal regularly to the other four hands. But, when you deal to yourself, you quickly take the card for your hand from the bottom of the deck as you say, "Here is where the card shark does the bottom deal. I'm not good at it, but you can see how the card shark can deal himself the Aces." Remember, you're giving a demonstration, so it doesn't have to be deceptive.

STEP 4: Repeat the deal four more times, so each poker hand ends up with five cards in it. Deal the first four hands normally, then deal your card from the bottom very deliberately each time.

STEP 5: Turn over your poker hand to display the four Aces, along with one other card behind them. The other hands remain face-down. Say, "And the card shark ends up with the four Aces, beating the other players."
