Lehman,Evelyn B. Freeman,Patricia L. Scharer,2010-09-20 In *Reading Globally K 8* the authors make the case for why it is necessary to be globally literate and multiculturally aware in today s shrinking world and they provide the tools teachers need to incorporate appropriate reading selections into primary and secondary school classrooms By using books from or about other countries teachers empower students to view the world in a more positive manner enriching and broadening their students lives and ultimately preparing them for life in a global economy and culture This reader friendly resource guides teachers and reading programme coordinators in selecting quality books for their classrooms incorporating global literature into different content areas and facilitating the discussions that follow Practical guidance is provided on how to Integrate the reading of global texts across the curriculum with specific application to language arts social studies science maths and the arts Locate and evaluate the authenticity and literary merit of potential books avoiding those that depict stereotypes Get started with an annotated list of children s books samples of student work and classroom vignettes from teachers *Australian Children's Authors* Rachel Dixon,2017-09-01 The short biographies in *Australian Children s Authors* are arranged alphabetically They include a brief description of the genre and style of each author and a select bibliography of their publications Children can browse through the list and look for an author whose work they would like to read They can also find out about the history of writing for children in Australia Included are tips for writing your own books and explanations that reveal how a writer turns thoughts into a finished book *Famous Australians* presents short biographies of people who have made notable contributions to society and who have helped make sport and children s literature such important and popular aspects of Australian culture *The Coloniality of Animal Monstrous Othering in Children's Books, Films, and Toys* Donna Varga,2024-08-19 *The Coloniality of Animal Monstrous Othering in Children s Books Films and Toys* examines how the portrayal of animals as physically distorted behaviorally depraved and intellectually defective serves to justify their debasement violation and destruction in materials directed toward young consumers The author argues that this animal monstrous Othering arises from the Eurocentric belief in humans natural superiority over animals and the right to categorize animals in accordance with a scale of worthiness that parallels the subjugation of racialized persons The chapters examine a variety of canonical figures like the dissolute wolf of *Red Riding Hood* stories and the disfigured titular character of the *Wonky Donkey* picture book alongside non canonical animals including reprobate pigs degenerate sharks self centered flamingos and wicked piranhas To counter this animal debasement Varga juxtaposes these readings with an examination of materials that articulate harmonious animal human interrelationships without dependence on styles of anthropomorphism that diminish animality *Twinkle, Twinkle, Southern*

Cross Robert Holden, 1992 *Twinkle Twinkle Southern Cross* published with the assistance of the Morris West Trust Fund combines scholarship and entertainment as it wanders many a crooked mile through the made to order folklore of Australia's own nursery rhymes. Examples from as early as 1854 and extending to the present day are examined in a wide ranging context of Australian literary and publishing history.

The Long Disenchantment Ilaria Poggiolini, 2024-12-27 This book seeks to replace a comforting European narrative of British missed opportunities with a chronicle of the complexity of UK EC EU relations. After nearly a decade of Brexit 2016 it revisits the historical evolution of the relationship between Britain and Europe since the 1970s. Building on an in depth study of primary and secondary sources the author sheds new light on the intricacies of that relationship. The book is structured in six chapters the first of which reflects on the causes of the UK's lack of engagement in the early and crucial developments of the European Community. The second chapter revisits ten years of stop go diplomacy of accession and the meaning of the first enlargement for Britain and its partners. The third chapter argues that in the early years entry represented for Britain an opportunity to deliver change working with France and Germany inside the EC and as an EC member building new relationships with countries outside including in the Commonwealth. The fourth chapter focuses on the dawning realisation that EC membership meant for Britain joining its partners on a journey towards an unknown destination in search of whatever closer Union would mean. The Fifth chapter concentrates on the 1980s when on the one hand the British government was to the fore in the creation of a single market while on the other it openly challenged an agreed upon narrative among the continental member states. This narrative was one which sought to reshape European values and relationships together with its culture geography and history round a commitment to greater integration. The final chapter is

an epilogue that examines the political decisions of the last four British prime ministers Major Brown Blair and Cameron in confronting and reacting to the reality of European Union from the Maastricht Treaty 1992 onward This examination suggests that rather than political continuity discontinuity led the UK through Prime Minister David Cameron s efforts at renegotiation in the EU to Brexit and his instant resignation This book invites readers to rethink refine and challenge the dominant narrative of Britain as a predictable permanent outsider condemned to irrelevance in the EC EU It will appeal to scholars of international relations and political history as well as political decision makers both in Britain and the EU The Oxford Handbook of Industrial Archaeology Eleanor Casella,Michael Nevell,Hanna Steyne,2022-05-12 Representing the first substantial English language text on Industrial Archaeology in a decade this handbook comes at a time when the global impact of industrialization is being re assessed in terms of its legacy of climate change mechanization urbanization the forced migration of peoples and labour relations Critical debates around the beginning of a new geological era The Anthropocene have emerged over the last decade This approach interrogates the widespread exploitation of natural resources that forged industrialization from its early emergence in 18th century northern Europe to its contemporary ubiquity environmental impacts and social legacy within our globalized world Through a broad international and multi period set of chapters this volume explores the complex origins processes and development of industrialization through both its physical remains and human consequences both the good and the bad It provides a diverse material framework for understanding our modern world from its industrial origins through its future paths in the 21st century *Australian national bibliography* ,1961
