Post, 2022-05-31 For caregivers of deeply forgetful people a book that combines new ethics guidelines with an innovative program on how to communicate and connect with people with Alzheimer s How do we approach a deeply forgetful loved one so as to notice and affirm their continuing self identity For three decades Stephen G Post has worked around the world encouraging caregivers to become more aware of and find renewed hope in surprising expressions of selfhood despite the challenges of cognitive decline In this book Post offers new perspectives on the worth and dignity of people with Alzheimer s and related disorders despite the negative influence of hypercognitive values that place an ethically unacceptable emphasis on human dignity as based on linear rationality and strength of memory This bias Post argues is responsible for the abusive exclusion of this population from our shared humanity With vignettes and narratives he argues for a deeper dignity grounded in consciousness emotional presence creativity interdependence music and a self that is not gone but differently abled Post
