The Werewolf's Guide to Life Ritch Duncan,Bob Powers,2009-09-15 Have you been attacked by a wolf like creature in the last 30 days Was it after the sun had set and under a full moon If you answered yes to both these

questions there's a very good chance that you were bitten by a werewolf. You now have less than a month before the full moon returns and with it your first transformation into a savage bloodthirsty beast. Survival is an option but first know this: Werewolves are real. The majority of lycanthropes who do not have access to this book die during or shortly after their first transformations generally due to heart failure, gunshot wounds, exposure, drowning, or suicide. Hollywood horror movies are NOT to be used as guides to living as a werewolf. Their goal is not to educate but to entertain. As a result, they are largely ignorant of the realities of the condition. Ignorance creates monsters; lycanthropy does not. You are not a monster. The *Werewolf's Guide to Life* cuts through the fiction and guides you through your first transformation and beyond, offering indispensable advice on how to tell if you're really a werewolf, post-attack etiquette, breaking the news to your spouse, avoiding government abduction, and how to not just survive but thrive. You cannot afford to not read this book. Your very life depends on it.
