The Foreign Critical Reputation of F. Scott Fitzgerald, 1980-2000 Linda C. Stanley, 2004-10-30 This bibliography extends the work of Stanley's first volume The Foreign Critical Reputation of F. Scott Fitzgerald: An Analysis and Annotated Bibliography to the final two decades of the 20th century It includes literature from the former countries of the USSR Romania India and Canada as well as countries that were covered in the first volume such as Britain France Italy Germany and Japan One of the major findings that emerges is that Fitzgerald's poetic prose is extremely difficult to translate but new translations continue to appear The introduction to this volume provides a synthesis of Fitzgerald scholarship abroad at the turn of the 21st century and points to new directions already suggested that may represent challenges to current scholarship An extended analysis introduces each chapter Each chapter also includes a chronological list of translations and editions of Fitzgerald's work from his earliest appearances in print to those appearing in 2000 The most substantial section of each chapter features fairly detailed annotations of monographs collections book chapters essays conference papers articles reviews and school editions This compilation will intrigue anyone interested in the work of F. Scott Fitzgerald

Crosscultural Transgressions Theo Hermans, 2014-07-10 Crosscultural Transgressions offers explorations and critical assessments of research methods and models in translation studies and points up new questions and directions Ranging from epistemological questions of description and historiography to the politics of language including the language of translation research the book tackles issues of research design and methodology and goes on to examine the kind of disciplinary knowledge produced in translation studies who produces it and whose interests the dominant paradigms serve The focus is on historical and ideological problems but the crisis of representation that has affected all the human sciences in recent decades has left its mark As the essays in this collection explore the transgressive nature of crosscultural representation whether in translations or in the study of translation they remain attentive to institutional contexts and develop a self reflexive stance They also chart new territory taking their cue from ethnography semiotics sociology and cultural studies and tackling Meso American iconic scripts Bourdieu s constructivism translation between philosophical paradigms and the complexities of translation concepts in multicultural societies
