Tense Commandments Federal Prescriptions And City Problems:

Tense Commandments Pietro S. Nivola, 1996-02-29 During the past decade dozens of large cities lost population as jobs and people kept moving to the suburbs Despite widespread urban revitalization and renewal one fact remains unmistakable when choosing where to live and work Americans prefer the suburbs to the cities Many underlying causes of the urban predicament are familiar disproportionate poverty stiff city tax rates and certain unsatisfactory municipal services most notably public schools Less recognized is the distinct possibility that sometimes the regulatory policies of the federal government the rules and rulings imposed by its judges bureaucrats and lawmakers further disadvantage the cities ultimately burdening their ability to attract residents and businesses In *Tense Commandments* Pietro S Nivola encourages renewed reflection on the suitable balance between national and local domains He examines an array of directive or supervisory methods by which federal policymakers narrow local autonomy and complicate the work urban governments are supposed to do Urban taxpayers finance many costly projects that are prescribed by federal law A handful of national rules bore down on local governments before 1965 Today these governments labor under hundreds of so called unfunded mandates Federal aid to large cities has lagged behind a profusion of mandated expenditures at times straining municipal budgets Apart from their fiscal impacts Nivola argues various federal prescriptions impinge on local administration of routine services tying the hands of managers and complicating city improvements Nivola includes case studies of six cities Baltimore Philadelphia New York Chicago San Francisco and Los Angeles He describes the politics of paternalism the political pressures that federal regulations place on governance Then he offers comparisons with various political systems abroad including Germany the U K France and Italy As the nation and its cities brace f

Tense Commandments Pietro S. Nivola, 2002-08-21 Despite widespread urban revitalization and renewal Americans still prefer the suburbs to the cities While many of the underlying causes of the urban predicament are familiar there is also the less recognized possibility that regulatory policies of the federal government disadvantage the cities and ultimately burden their ability to attract residents and businesses This book encourages renewed reflection on the suitable balance between national and local domains

Landmark Legislation 1774-2022 Stephen W. Stathis, 2024-03-15 This comprehensive up to date guide covers important laws and treaties enacted by the U S Congress This edition expands coverage to include the last five Congresses 2013 2022 which have seen landmark legislation across a broad spectrum of issues including infrastructure child welfare policy climate change conservation and public lands the COVID pandemic criminal justice cybersecurity semiconductors disaster assistance gun safety veterans health care and more

City Douglas W. Rae, 2008-10-01 How did neighborhood groceries parish halls factories and even saloons contribute more to urban vitality than did the fiscal might of postwar urban renewal With a novelist s eye for telling detail Douglas Rae depicts the features that contributed most to city life in the early urbanist decades of the twentieth century Rae s subject is New Haven Connecticut but the lessons he draws apply to many American

cities City Urbanism and Its End begins with a richly textured portrait of New Haven in the early twentieth century a period of centralized manufacturing civic vitality and mixed use neighborhoods As social and economic conditions changed the city confronted its end of urbanism first during the Depression and then very aggressively during the mayoral reign of Richard C Lee 1954 70 when New Haven led the nation in urban renewal spending But government spending has repeatedly failed to restore urban vitality Rae argues that strategies for the urban future should focus on nurturing the unplanned civic engagements that make mixed use city life so appealing and so civilized Cities need not reach their old peaks of population or look like thriving suburbs to be once again splendid places for human beings to live and work The Oxford Handbook of State and Local Government Donald P. Haider-Markel,2014-04 The Oxford Handbook of State and Local Government covers the main areas of study in subnational politics by exploring the central contributions to the comparative study of institutions behaviour and policy in the American context **City Power** Richard Schragger,2016-09-01 Reigning theories of urban power suggest that in a world dominated by footloose transnational capital cities have little capacity to effect social change In City Power Richard C Schragger challenges the existing assumptions arguing that cities can govern but only if we let them In the past decade city leaders across the country have raised the minimum wage expanded social services and engaged in social welfare redistribution These cities have not suffered capital flight In fact many are experiencing an economic renaissance Schragger argues that city policies are not limited by the demands of mobile capital but instead by constitutional restraints serving the interests of state and federal officials Maintaining weak cities is a political choice In this new era of global capital the power of cities is more relevant to citizen well being than ever before A dynamic vision of city politics for our new urban age City Power reveals how cities can govern despite these constitutional limits and why we should want them to **Hometown Inequality** Brian F. Schaffner,Jesse H. Rhodes,Raymond J. La Raja,2020-07-09 Using big data this book reveals stark racial and class inequalities in representation in local governments across the United States The Dynamics of Federalism in National and Supranational Political Systems Michael A. Pagano,2007-01-17 This collection of essays is designed to help scholars and practitioners understand the fluid and dynamic nature of federalism with particular emphasis on the federal system in the United States The book is written to aid our understanding of the contemporary question which federalism *Yale Law Journal: Volume 124, Number 2 - November 2014* Yale Law Journal,2014-12-08 The November 2014 issue of The Yale Law Journal the second of academic year 2014 2015 features new articles on law and legal theory by internationally recognized scholars Contents include Article Agency Enforcement of Spending Clause Statutes A Defense of the Funding Cut Off Eloise Pasachoff Essay Bounded Institutions Yair Listokin Book Review Constitutions of Hope and Fear Frederick Schauer Note Price s Progress Sex Stereotyping and Its Potential for Antidiscrimination Law Zachary Herz Note Dual Sovereignty Due Process and Duplicative Punishment A New Solution to an Old Problem Adam Adler Note Measuring the Fortress Explaining Trends in Supreme Court and Circuit Court Dictionary Use John Calhoun Comment Parens Patriae

the Class Action Fairness Act and the Path Forward The Implications of Mississippi ex rel Hood v AU Optronics Corp Patrick Hayden This quality ebook edition features linked notes active Contents active URLs in notes and proper Bluebook formatting The November 2014 issue is Volume 124 Number 2 Accountability and Responsiveness at the Municipal Level Sandra Breux,Jérôme Couture,2018-07-02 In Canada the quality of municipal democracy has been questioned due to three crucial factors First voter turnout tends to be significantly lower for municipal elections than it is for other levels of government Second the re election rate of incumbent candidates is higher compared to provincial territorial and federal elections Third corruption and other scandals have tarnished the image of local democracy Are cities sufficiently capable of responding to crises and representing the interests of their residents Accountability and Responsiveness at the Municipal Level addresses these issues through qualitative and quantitative analysis focusing on some of the most important characteristics of the Canadian municipal scene including the contexts of partisanship and non partisanship the careers and daily work of municipal officials and multilevel governance This volume also assists directly in the collection and dissemination of data about cities as there is currently no centralized system for capturing and organizing electoral statistics at the municipal level Municipal democracy in Canada suffers from a representation deficit Accountability and Responsiveness at the Municipal Level is an important first step in building high quality comparative information on the politics of Canada s cities

Welcoming New Americans? Abigail Fisher Williamson,2018-09-21 Even as Donald Trump s election has galvanized anti immigration politics many local governments have welcomed immigrants some even going so far as to declare their communities sanctuary cities that will limit cooperation with federal immigration authorities But efforts to assist immigrants are not limited to large politically liberal cities Since the 1990s many small to mid sized cities and towns across the United States have implemented a range of informal practices that help immigrant populations integrate into their communities Abigail Fisher Williamson explores why and how local governments across the country are taking steps to accommodate immigrants sometimes despite serious political opposition Drawing on case studies of four new immigrant destinations Lewiston Maine Wausau Wisconsin Elgin Illinois and Yakima Washington as well as a national survey of local government officials she finds that local capacity and immigrant visibility influence whether local governments take action to respond to immigrants State and federal policies and national political rhetoric shape officials framing of immigrants thereby influencing how municipalities respond Despite the devolution of federal immigration enforcement and the increasingly polarized national debate local officials face on balance distinct legal and economic incentives to welcome immigrants that the public does not necessarily share Officials efforts to promote incorporation can therefore result in backlash unless they carefully attend to both aiding immigrants and increasing public acceptance Bringing her findings into the present Williamson takes up the question of whether the current trend toward accommodation will continue given Trump s anti immigrant rhetoric and changes in federal immigration policy **Demanding Logic in Politics** Jason Krueger MPA,Dianna Contreras Krueger

PhD,2025-07-22 Groups of logical youths skilled in public policy and dissemination of correct information is a terror to politicians and the few wealthy who control politicians Reconstructed civics education could teach forcing politicians to address root causes to problems and present logical solutions Civics education could be a curriculum beginning with critical thinking engaging in logical tools and problem solving steps that becomes the subject of participatory politics later This design shows students they are in numbers more powerful than politicians This is how to reign in politicians with logic and student activism Logic is a focus on ways to solve problems rather than temporary fixes of proximate problems A step by step process applied to public policy is a means by which to solve problems High school and college students may form local state or nationwide interest groups armed with logical public policy proposals to influence the public the politicians and government actors while in school classes Jason Krueger and Dianna Contreras Krueger herein focus on politics and government with education as a recurring theme This is a guide to implementing political and social changes to improve health housing transportation and other infrastructure with the intent to support the pursuits of happiness This proposes expanding the choices of ways of living and increasing competition with changes to government and its influences Drastically increase your knowledge of political activism and public policy and learn how to get the wrong politicians out of government

Agenda for the Nation Henry Aaron,James M. Lindsay,Pietro S. Nivola,2003-07-29 More powerful and affluent today than ever the United States has promising opportunities to influence the course of history Yet these prospects are shadowed by significant perils and burdens In this visionary book leading scholars from the Brookings Institution and other prominent research organizations and universities analyze the major domestic and foreign policy problems facing the nation over the next five to ten years The challenges on the domestic front are formidable assuring fair but affordable access to health care shoring up retirement income for an aging population encouraging long term economic growth easing the growing pains of an increasingly diverse society and reconciling energy policies with environmental concerns In international affairs the central task is to use America s unprecedented power wisely and to protect a homeland that has been revealed as surprisingly vulnerable Yet efforts must also focus on improving the economic fortunes of poorer countries expanding trade and reforming the rules that regulate the flows of capital across national borders Is the United States government capable of rising to these vast and varied challenges The concluding chapters of this book offer cautious optimism While it is often criticized the American political system is fundamentally resilient and flexible Ambitious in scope *Agenda for the Nation* provides thoughtful constructive answers to questions of how the U S government can effectively serve its citizens and meet its global responsibilities in a world of opportunity and uncertainty

Elections in America Michael C. LeMay,2022-08-04 *Elections in America* provides a thorough and objective explanation of American elections at the local state and national levels It discusses laws and practices that govern elections the history of elections and voting rights and contemporary voting controversies *Elections in America* is an all in one resource for understanding the many facets of elections and voting trends

since the United States came into being It explains how when and why the franchise expanded in fits and starts after America's founding and the various controversies over voting rights and vote counting that swirl around elections today It reviews the major landmark court decisions that have impacted electoral politics discusses how America's two party system has shaped elections and provides information on major organizations groups and people battling over voting rights and election laws In addition this resource provides a suite of original essays from election scholars on different aspects of U S electoral politics as well as a carefully curated selection of primary documents illuminating important developments in American election history The book also contains a comprehensive annotated list of academic resources to guide the reader towards further research on topics of interest

Institutions & Public Law Robert A. Kagan, 2005 Institutions Public Law Comparative Approaches is a set of essays on the politics of law and courts by leading public law scholars in the United States Europe and Latin America The essays share the view that understanding courts requires attention to the political dynamics that shape judicial design and authority as well as the position of courts within the broader political system This volume is essential reading for undergraduate and graduate courses in judicial politics

Red and Blue Nation? Pietro S. Nivola, David W. Brady, 2008-04-01 A Brookings Institution Press and the Hoover Institution publication America's polarized politics are largely disconnected from mainstream public preferences This disconnect poses fundamental dangers for the representativeness and accountability of government as well as the already withering public trust in it As the 2008 presidential race kicks into gear the political climate certainly will not become less polarized With important issues to address including immigration policy health care and the funding of the Iraq war it is critical that essential policies not be hostage to partisan political battles Building upon the findings of the first volume of Red and Blue Nation Brookings 2006 which explored the extent of political polarization and its potential causes this new volume delves into the consequences of the gulf between red states and blue states The authors examine the impact of these political divisions on voter behavior Congressional law making judicial selection and foreign policy formation They shed light on hotly debated institutional reform proposals including changes to the electoral system and the congressional rules of engagement and ultimately present research supported policies and reforms for alleviating the underlying causes of political polarization While most discussion of polarization takes place in separate spheres of journalism and academia Red and Blue Nation brings together a unique set of voices with a wide variety of perspectives to enrich our understanding of the issue Written in a broad accessible style it is a resource for anyone interested in the future of electoral politics in America Contributors include Marc Hetherington and John G. Geer Vanderbilt University Deborah Jordan Brooks Dartmouth College Martin P. Wattenberg University of California Irvine Barbara Sinclair and Joel D. Aberbach UCLA Christopher H. Foreman University of Maryland Keith Krehbiel Stanford University Sarah A. Binder Benjamin Wittes Jonathan Rauch and William A. Ga

American Intergovernmental Relations Laurence J. O'Toole, 2007 With feedback from adopters editor Laurence O'Toole retains

important classic selections from earlier editions while freshening this volume with new selections that cover not only the impact of recent fiscal developments and international influences on U S intergovernmental relations but also explore the key role of the Supreme Court in shaping the system s evolution in such areas as homeland security interstate relations and local finance Judicious editing of essays and substantial part introductions make American Intergovernmental Relations an invaluable text and an engaging read **Choice** ,2005 Dangerous Assignments ,2003 Debating Democracy Bruce Miroff,Raymond Seidelman,Todd Swanstrom,2004-11 This supplementary text offers two readings per chapter organized in a debate style format representing opposing viewpoints The straightforward thought provoking presentation facilitates class discussion Debate topics include Public Opinion The American People and War Civil Liberties and War Debating the USA Patriot Act Debating the Deficit and the Size of Government Economic Equality A Threat to Democracy and U S Foreign Policy After September 11 American Hegemony or International Cooperation
