*Last Line Last Circle* Massimo Nibbi, 2023-08-25 Hans Jeger is a nice guy and lives in the 5th South West of the Federation where only border towns have names All the others have been numbered according to their position Ten Circles one inside the other The First is the beating heart of it all while the Last is the embankment where the outcasts survive the day Strict rules establish the assignment of Social Points points which added together determine the Circle in which to live and the possibility of being able to move from one city to another Political power Economic Corporations Police Army and Inquisition are the cogwheels of a mechanism that seems to have no weak points Hans Jeger however despite him will be able to track down a weak point and trapped between a sense of duty and conscience he will risk ending up crushed under those same wheels that were supposed to protect him Thanks to its armored helicopters and Inquisitors deadly as poisonous snakes the Federation has redesigned a civilization in which its strength appears invincible But anyone who has learned something from history knows that no one is truly invincible Anderson's historical and chronological deduction of the origin of commerce, from the earliest accounts ... The Book of Wrath Karys Pena, 2025-02-14 Sikka The very name whispers of a realm forged in the fires of damnation a meticulously crafted hellscape ruled by the unwavering ambition of the Sikka family Each member a potent embodiment of one of the seven deadly sins claws their way towards absolute power in a landscape where betrayal is as common as breath and mercy is a forgotten relic This is not a story of heroes and villains it is a chronicle of sinners their ruthless pursuit of dominion painting a brutal portrait of ambition unchecked The narrative plunges into the heart of their infernal family drama exploring the complex web of relationships shifting alliances and agonizing betrayals that define their existence Prepare yourselves for a journey through the nine circles of hell not as a guided tour but as a harrowing descent into the souls of those who embody sin s most alluring and terrifying aspects Within these pages you will witness the seductive dance of power the devastating consequences of unchecked greed and the agonizing struggle for survival in a world where darkness

reigns supreme The lines between right and wrong are blurred morality is a battlefield and the only certainty is the relentless pursuit of dominance Let the fires of Sikka consume you      Poetics of Emptiness Jonathan Stalling, 2010 Poetics of Emptiness traces the historically specific intertextual pathways of a single if polyvalent philosophical term emptiness as it is transformed within twentieth century American poetry and poetics This conceptual migration is detailed in two sections The first focusing on transpacific Buddhist poetics discusses Ernest Fenollosa's The Chinese Written Character as a Medium for Poetry as an expression of Fenollosa's Buddhist poetics explores classical Chinese poetics as it was known by Fenollosa and talks about the role of emptiness in Gary Snyder The second half on transpacific Daoist poetics explores the career of poet translator critic Wai lim Yip and engages the weave of post structural thought and Daoist and shamanistic discourses in Theresa Hak Kyung Cha Formulating interpretive frames as hybrid as the texts being read this book unveils one of the most important yet still largely unknown stories of American poetry and poetics      The Positive Theory of Capital Eugen von Böhm-Bawerk, 1923      **The Avoidable War** Kevin Rudd, 2022-03-22 A war between China and the US would be catastrophic deadly and destructive Unfortunately it is no longer unthinkable The relationship between the US and China the world's two superpowers is peculiarly volatile It rests on a seismic fault of cultural misunderstanding historical grievance and ideological incompatibility No other nations are so quick to offend and be offended Their militaries play a dangerous game of chicken corporations steal intellectual property intelligence satellites peer and AI technicians plot The capacity for either country to cross a fatal line grows daily Kevin Rudd a former Australian prime minister who has studied lived in and worked with China for more than forty years is one of the very few people who can offer real insight into the mindsets of the leadership whose judgment will determine if a war will be fought The Avoidable War demystifies the actions of both sides explaining and translating them for the benefit of the other Geopolitical disaster is still avoidable but only if these two giants can find a way to coexist without betraying their core interests through what Rudd calls managed strategic competition Should they fail down that path lies the possibility of a war that could rewrite the future of both countries and the world      *The Astronomy of Levi ben Gerson (1288-1344)* Bernard R. Goldstein, 2012-12-06 It would seem that S Munk was the first modern scholar to draw attention to the significance of Levi ben Gerson's Astronomy surely the most original work on astronomy written in Hebrew in the Middle Ages Munk 1859 p 500 called for a specialist to undertake a serious study of this work but there was little response to his plea in the succeeding century Indeed this is the first edition of the Hebrew text of any part of Levi's Astronomy but for the table of contents Renan 1893 pp 624-32 and the poems celebrating the invention of the Jacob Staff that appear in chapter 9 Carlebach 1910a pp 152-53 The text of Levi's Astronomy is written in a ponderous Hebrew style but the content sparkles with originality The Ptolemaic tradition is subjected to a profound critique based on the idea that the planetary models must conform both to Levi's own observations as well as those of the ancients and the claim that astronomical theory must be philosophically sound The enduring vigor of the Ptolemaic tradition has been characterized by O

Neugebauer as follows There is no better way to convince oneself of the inner coherence of ancient and medieval astronomy than to place side by side the Almagest al-Battani's Opus astronomicum and Copernicus's De Revolutionibus Chapter by chapter theorem by theorem table by table these works run parallel 1957 pp 205-6
