Health and Disease discusses ethnicity from a medical perspective. The book is comprised of 35 chapters that are grouped into four sections. The text first covers the background issues concerning the relationship between ethnicity and health. The next part deals with topics related to epidemiology such as the health of migrants and interethnic comparison of cardiovascular disease. Next the book tackles the sociology of health this part covers occupational status housing and racism. The last part discusses the specific medical aspects including pregnancy viral infections and cardiovascular disease. The book will be of great use to medical researchers and practitioners. Professionals dealing with ethnicity such as sociologists anthropologists and psychologists will also benefit from this book.

**The Granulomatous Disorders** D. Geraint James, A. Zumla, 1999-09-09 This authoritative account of the granulomatous disorders provides a comprehensive overview of this complex group of diseases. Collectively these disorders can present a bewildering array of symptoms affecting all the body systems. This volume takes full account of recent advances in our knowledge of the molecular biology and immunology of these disorders and casts fresh light on their diagnosis and treatment. This timely publication is organised to include chapters focused on causative agents and those addressing affected body systems. Highly illustrated throughout including numerous colour plates it encompasses and integrates the very latest science pathology and practical clinical advice. Compiled by international authorities with chapters which combine the expertise of both a pathologist and clinician it is sure to become an essential source of reference for a very wide readership including infectious disease specialists immunologists pathologists radiologists ophthalmologists and general physicians.
