Como lo constatar el lector dentro del universo del derecho procesal se refiere al tema específico de las pruebas es decir a la necesidad que existe en todo proceso de establecer la verdad sobre los motivos y hechos que lo originan cuando los mismos son disputados por las partes y conforme a lo cual el juez debe resolver la controversia La aplicación de la Teoría del Caso y la Teoría del Delito en el Proceso Penal Acusatorio Benavente Chorres, Hesbert, 2024-04-23 Si los hechos que el abogado maneja no son subsumibles dentro de un tipo penal no tiene un caso penal sino una historia pura y simple Si los hechos son subsumibles dentro del tipo penal pero no hay prueba se tiene una buena historia delictiva Si los hechos son subsumibles dentro del tipo y además se tiene una buena prueba el fiscal tiene un caso Esta expresión revela que la construcción del caso penal no se reduce a la mera presentación de los hechos ante un Tribunal o jurado por el contrario exige una metodología de trabajo en la cual se conjuguen los aspectos fácticos normativos y probatorios que permita el esclarecimiento de los hechos la coincidencia de la verdad procesal con la histórica así como una respuesta del órgano jurisdiccional legítima y propicio para los intereses de las partes Esta metodología no es otra que la denominada Teoría del caso la cual es estudiada en la presente obra no desde la perspectiva norteamericana de enseñanza del Derecho por casos o la persuasión del Jurado a través de una exposición emotiva de los hechos sino como método de trabajo para la construcción y análisis de hipótesis delictiva a través del empleo de esquemas conceptuales como la teoría del delito y la teoría de la prueba Ello revela la importancia de la Teoría del caso la cual no es privativa del trabajo del Fiscal sino también de todo interviniente en el proceso penal Juez abogado defensor acusador particular etc debido a que el profesional del Derecho quien conozca y maneje la Teoría del caso presentar una ventaja competitiva frente a sus demás colegas porque podrá emplear herramientas propias del Derecho penal y del Derecho procesal penal Para ello encontrar en el presente estudio todo el material necesario para construir estrategias procesales y salir airoso en la dinámica que impregna el proceso punitivo empleando instrumentos sustantivos y adjetivos cuya conjunción permite la Teoría del caso Finalmente el contenido del presente estudio es examinar la teoría del caso aplicada en el proceso penal acusatorio a través de cuatro fases o pasos a constructiva la cual implica desmenuzar los hechos seleccionar la teoría del delito aplicable al caso subsumir los hechos en cada uno de los elementos de la teoría del delito seleccionada e identificar las evidencias que den sustento a cada uno de los hechos ya desmenuzados b recolectiva la misma que denota la b squeda y aseguramiento de aquellas evidencias declaraciones documentos etc tendientes a demostrar su caso o versión c depurativa esto es que formulada la acusación lo que se busca es sanear todo el material probatorio a fin que sólo lo legalmente obtenido e incorporado al proceso sea lo que se exponga como material que acredite la versión que plantea la parte y d expositiva la

cual consiste en que las partes expongan sustenten y debatan cada una de las versiones esgrimidas En ese sentido estos pasos operan tanto en la investigaci n preliminar preparatoria intermedia y de juzgamiento respectivamente lo cual implica reconocer que la teor a del caso se construye desde el primer momento en que uno ingresa a la din mica del proceso penal y como una br jula nos ir conduciendo en las respectivas etapas procesales *Teoría y práctica de la prueba judicial. la técnica de sembrar la duda razonable cuya relación con la convicción moral o la íntima convicción es incompatible con el juicio de derecho por el contrario consideramos que el juicio es cognitivo y justo en un sentido de equidad no buscando las zancadillas a la verdad sino el adecuado esclarecimiento de los hechos con la correcta imposición de las consecuencias jurídico penales Desde esta perspectiva la obra explica la aplicación de la teoría del delito en la teoría del caso por ejemplo a la hora de elaborar los alegatos de clausura asimismo se analiza desde la teoría de los derechos fundamentales de la prueba y del proceso la dinámica de los interrogatorios enfrentándonos a la sobrevalorada credibilidad dotando de sentido normativo a las técnicas de litigación **Lecciones constitucionales de derecho probatorio. Tomo III** Varios,2022-05-22

Conmemorando los cuarenta años del Departamento de Derecho Procesal de la Universidad Externado de Colombia su observatorio constitucional de normas procesales presenta este libro que forma parte de una colección de cuatro tomos con el fin de contribuir al entendimiento de las grandes transformaciones que ha sufrido el derecho procesal en el país durante las últimas décadas En esta obra se realiza un estudio de la jurisprudencia constitucional la cual se ha convertido en una herramienta esencial para interpretar y aplicar el régimen probatorio La Constitución Política de 1991 implicó en muchos casos un nuevo entendimiento de las garantías probatorias con impacto en todas las ramas del derecho **Nueva teoría de la prueba** Antonio Dellepiane,2023-12-05 No hay rama alguna del derecho que no tenga íntima conexión con la filosofía y el derecho procesal menos que otra cualquiera de las ciencias jurídicas hace excepción a esta regla El derecho de procedimientos se relaciona con la filosofía por múltiples partes y esa anastomosis se hace especialmente estrecha hasta revestir el carácter de una verdadera dependencia del uno a la otra en todo lo que atañe a la prueba judicial La teoría de la prueba judicial puede decirse que es un mero capítulo de la lógica aplicada y como tal entra a el conocimiento o la referencia de problemas de psicología y hasta de metafísica Así lo reconocen los mismos tratadistas que la han considerado desde el punto de vista esencialmente jurídico como Bonnier que abre su clásica obra sobre la materia con una introducción en la cual se esfuerza en sentar según sus propias palabras las bases filosóficas de la prueba judicial tocando aunque con suma sobriedad algunas doctrinas metafísicas para dar de ese modo una base sólida y racional al edificio que se propone construir

Revista, 1914 **Revista de la Universidad de Buenos Aires** Universidad de Buenos Aires, 1914 Nociones Fundamentales de la Teoría General y Regímenes Particulares del CONTRATO DE SEGURO Becerra Toro, Rodrigo, 2014-03-31 El seguro y más propiamente el derecho de seguros está integrado por el conjunto de normas jurídicas que regulan la actividad económica aseguradora como expresión de la actividad socioeconómica. En principio se trata de normas de derecho privado pero no pocas tienen carácter de derecho público y se identifican con el orden público económico. En esencia los comentarios que nos ocupan los hacemos desde la perspectiva del derecho privado como corresponde al estudio del contrato de seguro por eso no ahondaremos en lo concerniente a la seguridad social que resulta impuesta por ley lo que descarta el origen de la voluntad contractual ni a las disposiciones que estructuran la actividad aseguradora y el régimen de control y vigilancia que sobre ellas ejerce la autoridad pública lo que por sí solo sería objeto de extensos y complejos estudios
