Ethnographies of law are historically associated with anthropology and the study of far away places and people In contrast this volume underscores the importance of ethnographic research in analyzing law in all societies particularly complex developed nations By exploring recent ethnographic research by socio legal scholars across a range of disciplines the volume highlights how an ethnographic approach helps in appreciating the realities of legal pluralism the subtle contradictions in any legal system and how legal meaning is constantly reproduced on the ground through the cultural frames and practices of peoples everyday lives      **Status of Pollinators in North America** National Research Council, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Board on Life Sciences, Committee on the Status of Pollinators in North America, 2007-04-13

Pollinators insects birds bats and other animals that carry pollen from the male to the female parts of flowers for plant reproduction are an essential part of natural and agricultural ecosystems throughout North America For example most fruit vegetable and seed crops and some crops that provide fiber drugs and fuel depend on animals for pollination This report provides evidence for the decline of some pollinator species in North America including America s most important managed pollinator the honey bee as well as some butterflies bats and hummingbirds For most managed and wild pollinator species however population trends have not been assessed because populations have not been monitored over time In addition for wild species with demonstrated declines it is often difficult to determine the causes or consequences of their decline This report outlines priorities for research and monitoring that are needed to improve information on the status of pollinators and establishes a framework for conservation and restoration of pollinator species and communities      *Andean Cocaine* Paul Gootenberg, 2008

Illuminating a hidden and fascinating chapter in the history of globalization Paul Gootenberg chronicles the rise of one of the most spectacular and now illegal Latin American exports cocaine Gootenberg traces cocaine s history from its origins as a      **Farming and the Fate of Wild Nature** Dan Imhoff, Jo Ann Baumgartner, 2006

Farming and the Fate of Wild Nature addresses an urgent and complex issue facing communities and cultures throughout the world the need for heightened land stewardship and conservation in an era of diminishing natural resources Agricultural lands in rural areas are being purchased for development Water scarcities are pitting urban and development expansion against agriculture and conservation needs The farming population is ageing and retiring while those who remain struggle against low commodity prices international competition rising production costs and the threat of disappearing subsidies We are living amidst a major extinction crisis much of it driven by agriculture as well as an increasing shift toward a global urban populace The modern diet driven by a grain fed livestock industry is no longer connected with the ecosystems that support it In international circles experts are arguing that further intensification of agriculture through industrialization and genetic modification will be necessary to both feed an exploding human population and to save what is left of wild biodiversity This book takes up where its predecessor the award winning *Farming with the Wild* left off Featuring a wide range of in depth

essays articles and other materials by such authors as Aldo Leopold Wendell Berry Michael Pollan Fred Kirschenmann and Daniel Imhoff this book persuasively demonstrates that farm and ranch operations which coexist with wild nature are necessary to sustain biodiversity and beauty on the landscape In fact as this invaluable educational resource demonstrates they are essential in the challenge of building sane healthy and hopeful human societies
