Camels in the Biblical World Martin Heide,Joris Peters,2021-10-26 Camels are first mentioned in the Bible as the movable property of Abraham During the early monarchy they feature prominently as long distance mounts for the Queen of Sheba and almost a millennium later the Gospels tell us about the impossibility of a camel passing through a needle s eye Given the limited extrabiblical evidence for camels before circa 1000 BCE a thorough investigation of the spatio temporal history of the camel in the ancient Near and Middle East is necessary to understand their early appearance in the Hebrew Bible Camels in the Biblical World is a two part study that charts the cultural trajectories of two domestic species the two humped or Bactrian camel *Camelus bactrianus* and the one humped or Arabian camel *Camelus dromedarius* from the fourth through first millennium BCE and up to the first century CE Drawing on archaeological camel remains iconography inscriptions and other text sources the first part reappraises the published data on the species domestication and early exploitation in their respective regions of origin The second part takes a critical look at the various references to camels in the Hebrew Bible and the Gospels providing a detailed philological analysis of each text and referring to archaeological data and zoological observations whenever appropriate A state of the art evaluation of the cultural history of the camel and its role in the biblical world this volume brings the humanities into

dialogue with the natural sciences The novel insights here serve scholars in disciplines as diverse as biblical studies zoo archaeology history and philology

Tomorrow's Child Rubem A. Alves, 2011-05-01 All theories of social change says Alves rest squarely on the economic and structural forces operative in society at any given moment in history Thus many of the proposals offered by today s futurologists fall considerably short of social revolution They are in effect extrapolations from the functional matrix of our society Like the dinosaurs who disappeared not because they were too weak but because they were too strong our civilization is motivated less by the desire for internal growth and existential relevance than it is by blind outward expansion We are determined by a triangle of interlocking systems each deriving and giving life to the others the power of the sword the power of money and the power of science In this context to be a realist is to accept the rules of the game laid down by the power lords of our rational society whose goals are war production and consumption But the utopian mentality argues Alves wants to create a qualitatively new order in which economy must abandon the goal of infinite growth The only way out then is to abort realism from the body politic and impregnate it with the power of the imagination

This book clears away the debris of realism and lays the groundwork for a constructive theory of creative imagination moving us toward new forms of social organization where the community of faith can be found **The Literary chronicle and weekly review** ,1820 **Hind Cartwheel** Lawrence Winkler,2012-10-04 In the summer of 1980 a maverick young doctor gave it all up to hitchhike around the world The first part of his odyssey took him through South America and up through Africa accompanied by his mythical hunter companion Orion His vision quest continued around the second cartwheel of the European Grand Tour In Hind Cartwheel blessed by the living goddess on his thirtieth birthday he spins the dharma wheel of the Indian subcontinent **Proceedings of the Society of Biblical Archaeology** Society of Biblical Archæology (London, England),1890 *Proceedings of the Society of Biblical Archaeology* ,1890 **The Monthly Magazine** ,1820
