*Medievalism* Sarah Weaver, 2024-12-17 Considers Tennyson's poems from the elegiac *In Memoriam* to the Arthurian Idylls of the King in the context of Victorian interest in philology How do words come to mean what they mean and how can we hope to use them precisely when they are constantly changing The urge to find a word's meaning through its etymology is an old and enduring one gaining new momentum in the nineteenth century as advocates of the so-called new philology argued that major revelations were to be found within the biographies of everyday expressions Developing hand in hand with a growing national interest in all things Anglo-Saxon language study simultaneously seemed to offer a pathway to the roots of English culture and to illuminate human history on a grand scale Alfred Tennyson 1809-1892 came of age in the midst of this exploding popularity of both Anglo-Saxonism and philology and he did so among men who were to be responsible for advancing both fields This study places this preeminent Victorian poet in the context of the period's preoccupation with the history of language It shows that the intellectual milieu that surrounded him encouraged him to revive archaic words and to reveal the literal metaphors lurking within his words Moreover his familiarity with past forms of English enabled him to arrange the connotations of his vocabulary for precise effect Surveying his techniques at every scale from individual vowels to narratives this book argues that Tennyson held a more optimistic view of language than scholars have generally supposed and shows the sophistication of his philological techniques

Denmark and the subsequent deportations the book sheds light on the fate of those who were arrested Through a micro historical analysis of everyday life it describes various aspects of social and daily life in proximity to death In doing so the volume illuminates the diversity of individual situations and conveys the deportees perceptions and striving for survival and normality Offering a multi perspective and international approach that places the case of Denmark into the broader Jewish experience during the Holocaust this book is invaluable for researchers of Jewish studies Holocaust and genocide studies and the history of modern Denmark

*and Notebooks, Volume 8* Søren Kierkegaard, 2015-08-18 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought, psychology and contemporary aesthetics especially literary theory. Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings. But Kierkegaard left behind nearly as much unpublished writing, most of which consists of what are called his journals and notebooks. Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries. By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects: philosophical, religious, political, personal. Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought. We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts, new insights and fragments, large and small, of partially or almost entirely completed but unpublished works. Kierkegaard's *Journals and Notebooks* enables us to see the thinker in dialogue with his times and with himself. Kierkegaard wrote his journals in a two-column format: one for his initial entries and the second for the extensive marginal comments that he added later. This edition of the journals reproduces this format, includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced. Volume 8 of this 11-volume series includes five of Kierkegaard's important NB journals, Journals NB21 through NB25, which cover the period from September 1850 to June 1852 and which show Kierkegaard alternately in polemical and reflective postures. The polemics emerge principally in Kierkegaard's opposition to the increasing infiltration of Christianity by worldly concerns, a development that in his view had accelerated significantly in the aftermath of the political and social changes wrought by the Revolution of 1848. Kierkegaard understood the corrupting of Christianity to be in the interest of the powers that be and he directed his criticism at politicians, the press and especially the Danish Church itself, particularly church officials who claimed to be reformers. On the reflective side Kierkegaard delves into a number of authors and religious figures, some of them for the first time, including Montaigne, Pascal, Seneca, Savonarola, Wesley and F. W. Newman. These journals also contain Kierkegaard's thoughts on the decisions surrounding the publication of the *Anti-Climacus* writings, *The Sickness unto Death* and especially *Practice in Christianity*. Kierkegaard's reader gets the sense both of a gathering storm by the close of the last journal in this volume, the famous attack on Christendom, is less than three years away and a certain hesitancy. What needs reforming, Kierkegaard insists, is not the doctrine or the Church but existences, i.e. lives.
