The Darkness Of God Theology After Hiroshima:

The Darkness of God Theology After Hiroshima Jim Garrison, 1982

The Darkness of God James Garrison,

Human Survival and Consciousness Evolution Stanislav Grof, Marjorie Livingston Valier, 1988-01-01 In addition to the apocalyptic prospect of global nuclear destruction there are other dismal scenarios involving resource and environmental issues that are less imminent but still serious in the long term Past analyses seeking remedies have focused on symptoms rather than causes They represent extensions and expressions of the same philosophies and strategies that created these situations This book brings a fresh and optimistic perspective to the problem area It explores modern consciousness research and transpersonal psychology for practices that accelerate the development of consciousness It covers a wide range from laboratory techniques of experimental psychiatry transpersonal psychotherapies and Jungian psychology to the Oriental and Western mystical traditions

Tragic Method and Tragic Theology Larry D. Bouchard, 2010-11 The book moves in a nonreductive way between literary and theological criticism to show how drama and religious thought discern the experience of evil tragic theology refers to how drama and theology render in thematic or symbolic form certain irreducible dimensions of evil and negativity Bouchard defines no single tragic method or any single view of evil but searches for the distinctive interplay of tragic method of theology in each dramatist The work opens by scrutinizing certain important interpretations of Greek tragedy Paul Ricoeur's interpretation of the Wicked God and the Tragic Vision receives major focus as does Sophocles who as a tragedian dramatized the action of inquiry and interpretation Bouchard then examines Augustine's views of evil and sin Reinhold Niebuhr's critique of the ironies of history and Tillich's conceptions of the demonic By interpreting tragedy in terms of sin or the effects of sin each theologian resists implications in his own thought pointing to a less resolvable tragic theology And yet these theologians also contribute very creative understandings of the irreducible character of evil and tragic experience Substantive and original readings of three playwrights are offered Rolf Hochhuth's tragedy of vocation The Deputy Robert Lowell's trilogy of American historical blindness The Old Glory and Peter Shaffer's dreams of tragic awareness and accountability in *Equus* and *Amadeus* revealing new permutations of the irreducibility of evil in contemporary Christian and Jewish religious thinkers who may be helpful in this task and concludes with a description of the experience of perplexed thought self critical in view of tragedy's witness to irreducibility of evil

Mephistopheles Jeffrey Burton Russell, 1990 An excellent and important intellectual history Library Journal Using examples from theology philosophy art literature and popular culture Russell describes the great changes effected in our idea of the Devil by the intellectual and cultural developments of modern times Mephistopheles is the fourth and final volume of Jeffrey Burton Russell's critically acclaimed history of the concept of the Devil The series constitutes the most complete historical study ever made of the figure called the second most famous personage in Christianity In the first three volumes the author brought the history of Christian diabolology to the end of the Middle Ages This volume continues the story from the Reformation to the present

tracing the fragmentation of the tradition **The Age of Atheists** Peter Watson, 2014-02-18 Examines atheism as a modern intellectual achievement that has motivated individuals to pursue invention and self reliance citing the accomplishments of secular philosophers scientists and artists who have worked in the absence of religious belief **Satan in America** W. Scott Poole, 2009-11-16 Satan in America tells the story of America s complicated relationship with the devil New light evangelists of the eighteenth century enslaved African Americans demagogic politicians and modern American film makers have used the devil to damn their enemies explain the nature of evil and injustice mount social crusades construct a national identity and express anxiety about matters as diverse as the threat of war to the dangers of deviant sexuality The idea of the monstrous and the bizarre providing cultural metaphors that interact with historical change is not new Poole takes a new tack by examining this idea in conjunction with the concerns of American religious history The book shows that both the range and the scope of American religiousness made theological evil an especially potent symbol Satan appears repeatedly on the political religious and cultural landscape of the United States a shadow self to the sunny image of American progress and idealism **The Living Church** , 1983 Broken Hallelujah Darren J. N. Middleton, 2007-01-01 Marking the fiftieth anniversary of Kazantzakis s death author Darren J N Middleton looks back on Kazantzakis s life and literary art to suggest that contrary to popular belief Kazantzakis and his views actually comport with the ideals of Christianity *Esalen* Jeffrey J. Kripal, 2011-09-07 Jeffrey Kripal here recounts the spectacular history of Esalen the institute that has long been a world leader in alternative and experiential education and stands today at the center of the human potential movement Forged in the literary and mythical leanings of the Beat Generation inspired in the lecture halls of Stanford by radical scholars of comparative religion the institute was the remarkable brainchild of Michael Murphy and Richard Price Set against the heady backdrop of California during the revolutionary 1960s Esalen recounts in fascinating detail how these two maverick thinkers sought to fuse the spiritual revelations of the East with the scientific revolutions of the West or to combine the very best elements of Zen Buddhism Western psychology and Indian yoga into a decidedly utopian vision that rejected the dogmas of conventional religion In their religion of no religion the natural world was just as crucial as the spiritual one science and faith not only commingled but became staunch allies and the enlightenment of the body could lead to the full realization of our development as human beings An impressive new book Kripal has written the definitive intellectual history of the ideas behind the institute San Francisco Chronicle Kripal examines Esalen s extraordinary history and evocatively describes the breech birth of Murphy and Price s brainchild His real achievement though is effortlessly synthesizing a dizzying array of dissonant phenomena Cold War espionage ecstatic religiosity incongruous pairings Darwinism Tantric sex and otherwise schizy ephemera psychedelic drugs spaceflight into a cogent satisfyingly complete narrative Atlantic Monthly Kripal has produced the first all encompassing history of Esalen its intellectual social personal literary and spiritual passages Kripal brings us up to date and takes us deep beneath historical surfaces in this definitive elegantly written book Playboy

Christian Ethics in Secular Worlds Robin Gill, 2004-08-23 A challenging book examining issues such as biotechnology AIDS and nuclear weapons and demonstrating that Christian ethics has something important and distinctive to contribute to secular worlds

The Demonic Ewan Fernie, 2013-02-11 Are we either good or bad and do we really know the difference Why do we want what we cannot have and even to be what we are not Can we desire others without wanting to possess them Can we open to others and not risk possession ourselves And where in these cases do we draw the line Ewan Fernie argues that the demonic tradition in literature offers a key to our most agonised and intimate experiences The Demonic ranges across the breadth of Western culture engaging with writers as central and various as Luther Shakespeare Hegel Dostoevsky Melville and Mann A powerful foreword by Jonathan Dollimore brings out its implications as an intellectual and stylistic breakthrough into new ways of writing criticism Fernie unfolds an intense and personal vision not just of Western modernity but of identity morality and sex As much as it is concerned with the great works this is a book about life

Evil (Problems in Theology) Jeff Astley, David Brown, Ann Loades, 2003-12-01 This reader samples a wide range of modern theological religious and philosophical discussion on the problem of evil understood both in terms of the practical or spiritual problem of coping with evil and the theological problem of explaining its presence in God's world Topics include protest atheism responses to the Holocaust Buddhist spirituality the free will defence the value of soul making theodicy and the cost effectiveness of evil Contributors include Roy Eckardt Austin Farrer John Hick Søren Kierkegaard John Mackie Jürgen Moltmann Kenneth Surin Elie Wiesel

The Inner World of Trauma Donald Kalsched, 2014-02-25 Donald Kalsched explores the interior world of dream and fantasy images encountered in therapy with people who have suffered unbearable life experiences He shows how in an ironical twist of psychical life the very images which are generated to defend the self can become malevolent and destructive resulting in further trauma for the person Why and how this happens are the questions the book sets out to answer Drawing on detailed clinical material the author gives special attention to the problems of addiction and psychosomatic disorder as well as the broad topic of dissociation and its treatment By focusing on the archaic and primitive defenses of the self he connects Jungian theory and practice with contemporary object relations theory and dissociation theory At the same time he shows how a Jungian understanding of the universal images of myth and folklore can illuminate treatment of the traumatised patient Trauma is about the rupture of those developmental transitions that make life worth living Donald Kalsched sees this as a spiritual problem as well as a psychological one and in *The Inner World of Trauma* he provides a compelling insight into how an inner self care system tries to save the personal spirit

God and Religion in the Postmodern World David Ray Griffin, 1989-01-01 Addressed to readers who have found liberal theology empty or who believe that one cannot be religious and fully rational and empirical at the same time

The Voice from the Whirlwind Stephen J. Vicchio, 2001-02-23 This book is concerned with why the world is not such an easy place in which to live Human beings as its apparently most sentient creatures live daily in a morally ambiguous environment Most of us

experience contentment happiness and even profound joy But these experiences are all too often interspersed or punctuated with unwarranted suffering excruciating pain and sometimes irrational violence Although human life may at times seem like heaven on earth it can also be more like scenes from a Kafka novel or a scarred canvas of Edvard Munch This book is primarily concerned with the problem of reconciling these two kinds of experiences with belief in a God who is said to be all good all knowing and all powerful Throughout the book I continually refer back to three criteria for what I think would count as a good answer to the problem First any serious philosophical or theological response to the problem of evil must be true to the tradition from which the problem originates The problem of evil is a peculiarly Judeo Christian problem because of the attributes of God in that tradition Second any answer to the problem of evil should be one that is logically consistent Third a good answer to the problem of evil must take the individual sufferer seriously from the Introduction *Understanding Religious Violence* J.P. Larsson, 2017-07-05 There is a long standing fear of that which is not understood Since September 11 2001 the fear surrounding the violent elements of religion has led to heightened tensions Research is thus essential to counteract the effects of religious xenophobia In this compelling book J P Larsson investigates religious violence terrorism and armed conflict in order to deliver the understanding required for a more peaceful world and to allow for a framework of conflict transformation This multi disciplinary text will greatly interest those in the fields of international relations theology and sociology *Calling Time* Martyn Percy, 2016-10-06 This collection of essays examines responses to the Millennium and whether or not the year 2000 could be claimed as a specifically Christian time It also considers how other religions reacted to the moment and what millennial celebrations reveal about religion in a secular age **Arguing the Apocalypse** Stephen D. O'Leary, 1998-08-20 Apocalyptic expectations of Armageddon and a New Age have been a fixture of the American cultural landscape for centuries With the approach of the year 2000 such millennial visions seem once again to be increasing in popularity Stephen O Leary sheds new light on the age old phenomenon of the End of the Age by proposing a rhetorical explanation for the appeal of millennialism Using examples of apocalyptic argument from ancient to modern times O Leary identifies the recurring patterns in apocalyptic texts and movements and shows how and why the Christian Apocalypse has been used to support a variety of political stances and programs The book concludes with a critical review of the recent appearances of doomsday scenarios in our politics and culture and a meditation on the significance of the Apocalypse in the nuclear age *Arguing the Apocalypse* is the most thorough examination of its subject to date a study of a neglected chapter of our religious and cultural history a guide to the politics of Armageddon and a map of millennial consciousness *Navigating Deep River* Mark W. Dennis, Darren J. N. Middleton, 2020-04-01 An interdisciplinary dialogue with Sh saku End s last novel offering new perspectives on Japanese culture Christian doctrine Hindu spiritualities and Buddhist worldviews In *Navigating Deep River* Mark W Dennis and Darren J N Middleton have curated a wide ranging discussion of Sh saku End s final novel *Deep River* in which four careworn Japanese tourists journey to India s holy Ganges in search of spiritual as well as

existential renewal Navigating Deep River evaluates and probes End s decades long search to find the words to explain Transcendent Mystery the difficult tension between faith and doubt the purpose of spiritual journeys and the challenges posed by the reality of religious pluralism in an increasingly diverse world The contributors including Van C Gessel who translated Deep River into English in 1994 offer an engaged and patient exploration of this major text in world fiction and this anthology promises to deepen academic appreciation for End within and beyond the West This volume contextualizes delineates and articulates the complex religious theological spiritual dimensions of Deep River and its rich intertextual interpersonal psychosocial and literary aspects There are few edited volumes in which so many experts focus on a single Japanese text in this sustained manner and this stands as a model of how to do so deftly and productively David C Stahl author of Social Trauma Narrative Memory and Recovery in Japanese Literature and Film
