those from lower social classes gay men people of colour and those differently abled However focusing solely on increased social inclusion in sport masks significant problems with both the culture and structure of sport This critical textbook examines social exclusion in sport and analyzes the socio negative attributes associated with competitive institutionalized sport for all who play Focusing on sport at non elite levels this book explores the lives of everyday citizens who play and examines how inequality and social deviance are structured into the social and sporting system Each chapter uses a key social theory to address a particular social problem in sport such as learned obedience to authority the acceptance of pain and injury the adoption of hyper masculine homophobic and sexist attitudes the teaching of in group out group and the use of sport as a false mechanism for social mobility By concentrating on real sport and through the use of startling vignettes illustrating the experiences of real people this textbook develops the critical senses social conscience and theoretical understanding of all students of sport and anybody for whom sport is part of their everyday life **So You Think You Can**

Think Otto B. Toews, 2017-10-26 In our complex world how can we learn to think through moral dilemmas in the pursuit of justice How do the words we associate with morality impact our understanding and application of it In short how can we enact equal measures of fairness among family members friends and strangers These are the troubling questions that guide Dr Otto Toews as he critically engages with the language of morality and uncovers what is lacking in our conversations about fairness Using a Principled Thinking Model for resolving everyday moral dilemmas Toews identifies five basic categories that are necessary for moral thinking duty rights motive desert and justice Combining this research with Nel Nodding's seminal work on caring Toews concludes that while it is vital that we practice thinking through moral dilemmas the key to attaining universal justice and fairness lies in our sense of fellow feeling or empathy Toews argues that without the urgency and energy prompted by a sense of concern for others thinking through moral dilemmas will remain insufficient in fostering an ethical world Throughout the book Toews augments his research by providing hypothetical scenarios involving two teachers Bill and Mae They engage in spirited debates over how duty rights motive desert and justice apply to issues such as education cyber bullying mental illness reconciliation and more Again and again Bill and Mae are caught up by the power of empathy demonstrating the urgent need to care for others It is through their dialogues that Toews has designed a brilliant way for us to witness moral thinking in action giving us the language we need to navigate it and preparing us for the countless types of conflicts we encounter every day *The Cambridge Handbook of Workplace Affect* Liu-Qin Yang, Russell
