## **The Day That I Die:**

**This'll Be The Day That I Die** John Michael Griffin, 2015-03-25 On Christmas Day December 25 2012 four scientists working at the Cold Spring Harbor Labs on Long Island announce a discovery that will change the course of humanity and pit science against theological beliefs that have existed since time began The team of genetic scientists have located and defined a human gene that can accurately identify the length of a human life from their first day to when their last day will come about Their 4 years of study of the gene offers no reasons for a person's demise except that they can predict with absolute certainty when an individual tested will meet their death The evidence rocks the foundations of religions worldwide and shakes the faith of humankind which has believed that only God has the power to control such decisions Nations around the globe take up the debate over who defines not the start but the end of a human life The debate will linger for years But the discovery also shakes the lives of four test volunteers that had agreed to be subjects and donated their DNA For each of the 4 subjects find out that they are scheduled to die exactly one year from the date of the announcement December 25 2013 will be the day that they die The four total strangers to each other seemingly in perfect health and all from completely separate walks of life and circumstances know only that they share the same date of death The wave of human emotions that accompanies their terrible news at first overwhelms them as they go from disbelief and denial to resignation and resolution They each take a different course as they prepare themselves by looking back on their lives and numbering the days they have left What happens to them and how the human spirit can change so suddenly becomes the focus as each person moves forward towards their final day of our most precious possession life

The Day I Die Anita Hannig, 2022-05-03 An intimate investigation of assisted dying in America and what it means to determine the end of our lives In this groundbreaking book award winning cultural anthropologist Anita Hannig brings us into the lives of ordinary Americans who go to extraordinary lengths to set the terms of their own death Faced with a terminal diagnosis and unbearable suffering they decide to seek medical assistance in dying a legal option now available to one in five Americans Drawing on five years of research on the frontlines of assisted dying Hannig unearths the uniquely personal narratives masked by a polarized national debate Among them are Ken an irreverent ninety year old blues musician who invites his family to his death dons his best clothes and goes out singing Derianna a retired nurse and midwife who treks through Oregon and Washington to guide dying patients across life's threshold and Bruce a scrappy activist with Parkinson's disease who fights to expand access to the law not knowing he would soon in an unexpected twist of fate become eligible himself Lyrical and lucid sensitive but never sentimental The Day I Die tackles one of the most urgent social issues of our time how to restore dignity and meaning to the dying process in the age of high tech medicine Meticulously researched and compassionately rendered the book exposes the tight legal restrictions frustrating barriers to access and corrosive cultural stigma that can undermine someone's quest for an assisted death and why they persist in achieving the departure they desire The Day I Die will transform the way we think about

agency and closure in the face of death Its colorful characters remind us what we all stand to gain when we confront the hard and yet ultimately liberating truth of our mortality

**The Day Is Now Far Spent** Robert Sarah,Nicolas Diat,2019-09-01 Robert Cardinal Sarah calls The Day Is Now Far Spent his most important book He analyzes the spiritual moral and political collapse of the Western world and concludes that the decadence of our time has all the faces of mortal peril A cultural identity crisis he writes is at the root of the problems facing Western societies The West no longer knows who it is because it no longer knows and does not want to know who made it who established it as it was and as it is Many countries today ignore their own history This self suffocation naturally leads to a decadence that opens the path to new barbaric civilizations While making clear the gravity of the present situation
