**The Intelligent Unconscious in Modernist Literature and Science** Thalia Trigoni, 2020-11-16 This book reassesses the philosophical psychological and above all the literary representations of the unconscious in the early twentieth century This period is distinctive in the history of responses to the unconscious because it gave rise to a line of thought according to which the unconscious is an intelligent agent able to perform judgements and formulate its own thoughts The roots of this theory stretch back to nineteenth century British physiologists Despite the production of a number of studies on modernist theories of the relation of the unconscious to conscious cognition the degree to which the notion of the intelligent unconscious influenced modernist thinkers and writers remains understudied This study seeks to look back at modernism from beyond the Freudian model It is striking that although we tend not to explore the importance of this way of thinking about the unconscious and its relationship to consciousness during this period modernist writers adopted it widely The intelligent unconscious was particularly appealing to literary authors as it

is intertwined with creativity and artistic novelty through its ability to move beyond discursive logic The book concentrates primarily on the works of D H Lawrence Virginia Woolf and T S Eliot authors who engaged the notion of the intelligent unconscious reworked it and offered it for the consumption of the general populace in varied ways and for different purposes whether aesthetic philosophical societal or ideological Shortlisted for the Modernist Studies Association MSA First Book Prize and for the 2021 British Society for Literature and Science Book Prize *Mosaic of Juxtaposition* Micheal Sean Bolton,2014-05-20 William S Burroughs experimental narratives from the 1959 publication of *Naked Lunch* through the late trilogy of the 1980s have provided readers with intriguing challenges and for some disheartening frustrations Yet these novels continue to generate new interest and inspire new insights among an increasing and evolving readership This book addresses the unique characteristics of Burroughs narrative style in order to discover strategies for engaging and navigating these demanding novels Bolton advises Burroughs subversive themes and randomizing techniques do not amount to unmitigated attacks on conventions as many critics suggest but constitute part of a careful strategy for effecting transformations in his readers Utilizing various poststructuralist theories as well as recent theories in electronic literature and posthumanism *Mosaic of Juxtaposition* examines the various strategies that Burroughs employs to challenge assumptions about textual interpretation and to redefine the relationship between reader and text *David Bowie and Romanticism* James Rovira,2022-08-22 David Bowie and Romanticism evaluates Bowie s music film drama and personae alongside eighteenth and nineteenth century poets novelists and artists These chapters expand our understanding of both the literature studied as well as Bowie s music exploring the boundaries of reason and imagination and of identity gender and genre This collection uses the conceptual apparatus and historical insights provided by the study of Romanticism to provide insight into identity formation drawing from Romantic theories of self to understand Bowie s oeuvre and periods of his career The chapters discuss key themes in Bowie s work and analyze what Bowie has to teach us about Romantic art and literature as well
