Reading Bernstein, Researching Bernstein Brian Davies, Ana Morais, Johan Muller, 2004-06-24 Basil Bernstein is arguably one of the most important educational theorists of the late 20th century Whilst most academics and students in sociology of education know of Bernstein few can claim to fully understand the scope and power of his work which simply cannot be matched by any of his contemporaries This book written by a team of international contributors offers an insight into the richness and depth of his theories It demonstrates the growing recognition of the value of Bernstein's work to understanding unfolding developments in education systems around the world today The volume is divided into four sections Section 1 considers the work of the theorists that Bernstein worked

through and with from Durkheim and Marx to Bourdieu and Foucault Section 2 focuses on teaching and learning in school contexts and draw on current issues like boy s underachievement citizenship system reform and language learning in varied cultural contexts Section 3 applies Bernstein s theories to teacher education Section 4 focuses on international and higher education This comprehensive text will show the international academic community in education and sociology as well as students on education sociology sociolinguistic and social psychology degrees how to read and use Bernstein Generic Instability and Identity in the Contemporary Novel Madelena Gonzalez,2009-12-14 Contemporary aesthetics is characterized by generic mixing on the level of both form and content The barriers between different media and different genres have been broken down in all literary art forms whether it be theatre poetry or the novel While the publishing industry is increasingly keen to label novels according to genre or sub genre Chick Lit Lad Lit Gay fiction Scottish fiction New Historical Fiction Crime fiction Post 9 11 Fiction the novel itself and novelists persist in resisting generic categorizations as well as inviting them Is this a move towards a new artistic liberty or does it simply testify to a confusion of identity The aesthetic supermarket evoked by Lodge in 1992 does indeed seem to sum up the variety of choices open to writers of fiction today and a literary landscape characterized by crossover and hybridization The familiar dialectic of realism versus experimentation has segued into a middle ground of consensus which is neither radical nor populist but both at the same time The techniques of postmodernism have become selling points for novels and the Postmodern Condition itself seems little more than a narrative posture marketed for an increasingly wide audience Whether they have recourse to a repertoire of imposture Amis Self Winterson as Richard Bradford would have it The Novel Now 2007 in other words the abandonment of any obligation to explain or justify their excursions from credulity and mimesis or like the New Puritans make use of narrative minimalism in order to foreground their own peculiarities contemporary novelists consistently draw attention to the fundamental instability of narrative process and genre The much feared apocalypse of the novel has failed to take place with the arrival of the new millennium but generic game playing and flickering narrative hesitation and uncertainty continue to pose the question of what constitutes a novel today and to challenge its identity in a world where all culture is increasingly public increasingly contested and increasingly multifarious Thanks to theoretical approaches as well as analyses of specific works this collection of essays aims to examine the concepts of generic instability and cross fertilization of narrative postures and impostures and their constant redefinition of identity which contaminates the very concept of genre It demonstrates the diversity of generic practices in the novel today and furnishes us with undeniable evidence of how generic instability is fundamentally constitutive of the contemporary novel s identity
