

about policies of the Central Government in fields belonging it. He questions a little later the assumption that regional problems in Indonesia could be resolved by larger doses of autonomy (p. 230).

He asks whether the rest of Indonesia could survive effectively as a political unit or a series of units, without Java? One cannot but agree with him that a fundamental improvement in the country's total financial position appears to be the way to cure the disabilities about which the regions complain. While President Soekarno's attempts to build up an image of a great and powerful Indonesia through his speeches and actions may play their role in building up Indonesian unity and in weakening regional loyalties, his country has to tackle tasks of economic construction in a determined manner to solve the regional problems.

**The Decline of Constitutional Democracy in Indonesia.** By HERBERT FEITH. Cornell University Press, Ithaca, New York, 1962. Pp. 618. Maps, Bibliography. U.S. \$9.50.

It is doubtful if any newly emergent nation in the world has had its birth throes recorded in more detail or from more points of view than has Bung Karno's Indonesia. A substantial proportion of the data which has been amassed has been brought together, collated and interpreted by the group of scholars who participated in the Modern Indonesia Project at Cornell University; their joint contribution to present and future understanding of the problems of political and economic development, not only in Indonesia but in other newly independent countries as well, has been very great. The volume here under review, one of the series produced under the auspices of the Cornell project, is an attempt to analyze Indonesia's experiment with constitutional democracy, under a parliamentary system, between 1949 and 1957 and to pinpoint the reasons for its abandonment.

Before we examine in some detail the main themes of the book, it is worthwhile to look at Feith's basis assumptions: namely, that when Indonesia attained her independence, she adopted a system of government which met the tests of constitutional democracy; and that this system formed the basis of government there through seven Cabinets and for seven and a half years, being abandoned

## **The Decline Of Constitutional Democracy In Indonesia:**

The Decline of Constitutional Democracy in Indonesia Herbert Feith, 2007 This is an intensive study of Indonesian politics from the attainment of full independence in December 1949 to the proclamation of martial law in March 1957 and President Soekarno's subsequent establishment of guided democracy. It is intended as a contribution to the ongoing discussion of democracy in the new states of Asia and Africa of the ways in which Western political institutions are transformed when employed in non-Western social settings and of the obstacles to be overcome if such institutions are to operate in consonance with the authority systems of new nations and with their solution of economic and administrative problems. Now brought back into print as a member of Equinox Publishing's Classic Indonesia series. The Decline of Constitutional Democracy is considered to be the definitive study of Indonesia in the 1950s and will be of great interest to the growing number of social scientists concerned with the pre-industrial nations and in particular with their efforts to use and adapt Western political institutions. This is a solid and scholarly account but written on the basis of much personal observation. Dr Feith manages to present his material in such a way that readers with no previous background in the subject will be able to follow the book almost as easily as will specialists. HERBERT FEITH 1930-2001 became familiar with Indonesia during 1951-53 and 1954-56 when he was an English Language Assistant with the Ministry of Information of the Republic of Indonesia. A citizen of Australia, he received an M.A. degree from the University of Melbourne in 1955 and a Ph.D. from Cornell University in 1961. He was a Research Fellow in the Department of Pacific History, Australian National University from 1960 to 1962 and was Chair of Politics at Monash University from 1968 until 1974. *The Decline of Constitutional Democracy in Indonesia* Herbert Feith, Cornell University. Islam and the State in Indonesia Bahtiar Effendy, 2003 This book explains the relationship between Islam and the state and politics in contemporary Indonesia. At least 181 new political parties came into being, a sizeable portion of which use Islam as their symbol and ideological basis. *Nationality and International Law in Asian Perspective*

**The Social Evolution of Indonesia** F. Tichelman, 2012-12-06 At a fairly early stage of socialism's penetration into the Afro Asian world a handful of European social democrats established an Indian Social Democratic Association ISDV They did so in a country Indonesia that was economically little developed and far away from any of the centres of European socialism and Asiatic radical nationalism The ISDV was soon able to bring its influence to bear on sections of the urban proletariat and to build up an Indonesian revolutionary movement This occurred in sharp competition with a nascent nationalist leadership and then without the usual intermediary role played by radicalizing groups of native intelligentsia In this way Dutch social democrats laid the foundations for one of the first communist parties in Asia and Africa a party which was destined to become one of the few communist mass parties of the Third World However in contrast to the major communist movements of China Vietnam this Indonesian party was to demonstrate a basic weakness successive and catastrophic defeats If we leave out Japan the only non Western country where a capitalist industrial revolution occurred we see that foreign and particularly Western minorities frequently did play a dominant role in the initial and formative phases of the socialist and workers movements of the Afro Asiatic world

*Legal Evolution and Political Authority in Indonesia* Daniel Lev, 2021-10-25 For nearly forty years following the collapse of Indonesia's parliamentary system Indonesia's once independent legal institutions were transformed into dedicated instruments of a powerful elite and allowed to sink into a deep mire of corruption and malfeasance Legal process was devastated far beyond the capacity of any simple effort at reconstruction by post Suharto governments Indonesia's problems in this respect surpass those of other countries in the region compelled by economic crisis to re-examine institutional structures The works reprinted in this collection constitute a case study over time of legal decay and the rise of reform interests in one of the most complex countries in the world Written during a period of

more than thirty years beginning in the early 1960s the essays trace several themes in the legal history of modern Indonesia They make clear however that legal history is seldom that alone but rather like law itself is largely derivative fundamentally imbedded in the interest ideas purposes and contentions of local political social and economic power

The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter insurgent security forces has risen markedly since the Second World War just as those of conventional or inter state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting interest in counter insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter insurgency which began with Britain s declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti colonial violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it
