The Diamond Mercenaries

Edward Jay Epstein

The Diamond Mercenaries:

Eye on the Diamonds Terry Crawford-Browne, 2012-09-28 In 2007 Terry Crawford Browne published the explosive *Eye On The Money*. It was primarily an account of the international banking sanctions campaign against apartheid during the 1980s but also dealt with the early stages of the now well documented South African arms deal scandal. *Eye On The Diamonds* is a sequel to the earlier book and provides updated information on the uncovering of the scandal. Its purpose is to keep the arms deal saga and the venality of the war business in public focus. In 2008 Crawford Browne was asked to lead a public interest application to the South African Constitutional Court after huge volumes of evidence confirmed how BAE and other arms companies paid massive bribes to politically well connected members of the African National Congress the so called black diamonds to secure their contracts. His application forced President Jacob Zuma's reluctant appointment in October 2011 of a judicial commission of inquiry to investigate the scandal. *Eye On The Diamonds* focus on diamonds links the colonial and apartheid histories of South Africa with the close histories of Israel and Palestine. It demonstrates how De Beers the South African originated company which dominated the diamond cartel for more than a century is fast losing control to far more ruthless Israeli players. Crawford Browne suggests that the diamond trade which is critical to the twenty first century war business makes every diamond a blood diamond. Blood diamonds provide the ultimate money laundering opportunity for organised crime while the Israeli war business thwarts efforts at peaceful resolution of conflict. Israel itself has become a promised land for organised crime where assassinations money laundering and other criminal activities are justified in the national interest. Crawford Browne shows in this well researched and hard hitting book that the international war business and the corruption it unleashes is completely out of control.

Diamonds Kunal Kapoor, 2025-09-21 Diamonds have long been sold as rare symbols of wealth love and eternity. But the truth is far darker. In *Diamonds An Evil Scam* investigative author Kunal Kapoor uncovers the shocking history of the diamond industry from Cecil Rhodes and De Beers monopoly to blood diamonds funding wars environmental destruction across Africa and the rise of synthetic diamonds that threaten to upend the market forever. This expos reveals how one company manipulated the world for over a century creating artificial scarcity fixing prices and orchestrating one of the greatest marketing cons of all time the idea that a diamond is forever. Spanning colonial exploitation apartheid international cartels and modern debates about lab grown diamonds Kapoor's book traces a story of greed violence and manipulation that shaped global economics and culture. If you've ever wondered whether the sparkle on your finger carries a hidden cost this book delivers the answers.

The New Dogs of War Ward Thomas, 2021-09-15 As Ward Thomas details in *The New Dogs of War* militias and paramilitary groups wield greater power than national governments in many countries while in some war zones private contractors perform missions previously reserved for uniformed troops. Most ominously terrorist organizations with global reach have come to define the security landscape for even the most powerful nations. Across the first decades of the twenty first century we have witnessed a

dramatic rise in the use of military force by these nonstate actors in ways that have impacted the international system leading Thomas to undertake this valuable assessment of the state of play at this critical moment To understand the spread of nonstate violence Thomas focuses on the crucial role played by an epochal transformation in international norms Since the eighteenth century the Westphalian model of sovereignty has reserved the legitimate use of force to states Thomas argues that normative changes in the decades after World War II produced a crisis of coherence for formal and informal rules against nonstate violence In detailed case studies of nonstate militias transnational terrorist networks and private military contractors Thomas explains how forces contesting state prerogatives exploited this crisis which in turn reshaped international understandings of who could legitimately use force By considering for the first time all three purveyors of nonstate violence as aspects of the same phenomenon *The New Dogs of War* explains this fundamental shift in the norm that for centuries gave states the monopoly on military force *The Illustrated Guide to Film Directors* David
