The Diary Of Joseph Farington Volume I July 1793 December 1794:

The Farington Diary, [1793-1821] Joseph Farington, 1802 *The French Revolution as Blasphemy* William L. Pressly, 2023-04-28 William Pressly presents for the first time a close analysis of two important neglected paintings arguing that they are among the most extraordinary works of art devoted to the French Revolution Johan Zoffany's *Plundering the King's Cellar at Paris August 10 1792* and *Celebrating over the Bodies of the Swiss Soldiers* both painted in about 1794 represent events that helped turn the English against the Revolution Pressly places both paintings in their historical context a time of heightened anti French hysteria and relates them to pictorial conventions contemporary history painting the depiction of urban mobs in satiric and festival imagery and Hogarth's humorous presentation of modern moral subjects all of which Zoffany adopted and reinvented for his own purposes Pressly relates the paintings to Zoffany's status as a German born Catholic living in Protestant England and to Zoffany's vision of revolutionary justice and the role played by the sansculottes women and blacks He also examines the religious dimension in Zoffany's paintings showing how they broke new ground by conveying Christian themes in a radically new format Art historians will find Pressly's book of immense value as will cultural historians interested in religion gender and race

Turner Franny Moyle, 2016-10-25 The life of one of Western art's most admired and misunderstood painters J M W Turner is one of the most important figures in Western art and his visionary work paved the way for a revolution in landscape painting Over the course of his lifetime Turner strove to liberate painting from an antiquated system of patronage Bringing a new level of expression and color to his canvases he paved the way for the modern artist Turner was very much a man of his changing era In his lifetime he saw Britain ravaged by Napoleonic wars revived by the Industrial Revolution and embarked upon a new moment of Imperial glory with the ascendancy of Queen Victoria His own life embodied astonishing transformation Born the son of a barber in Covent Garden he was buried amid pomp and ceremony in St Paul's Cathedral Turner was accepted into the prestigious Royal Academy at the height of the French Revolution when a climate of fear dominated Britain Unable to travel abroad he explored at home reimagining the landscape to create some of the most iconic scenes of his country But his work always had a profound human element When a moment of peace allowed travel into Europe Turner was one of the first artists to capture the beauty of the Alps to revive Venice as a subject and to follow in Byron's footsteps through the Rhine country While he was commercially successful for most of his career Turner's personal life remained fraught His mother suffered from mental illness and was committed to Bedlam Turner never married but had several long term mistresses and illegitimate daughters His erotic drawings were numerous but were covered up by prurient Victorians after his death Turner's late impressionistic work was held up by his Victorian detractors as example of a creeping madness Affection for the artist's work soured John Ruskin the greatest of all 19th century art critics did what he could to rescue Turner's reputation but Turner's very last works confounded even his greatest defender

TURNER humanizes this surprising genius while placing him in his fascinating historical context Franny Moyle brilliantly tells the story of the man to give us an astonishing portrait of the artist and a vivid evocation of Britain and Europe in flux

Inventing 'Easter Island'

Beverley Haun, 2008-04-05 Easter Island or Rapa Nui as it is known to its inhabitants is located in the Pacific Ocean 3600 kilometres west of South America Annexed by Chile in 1888 the island has been a source of fascination for the world beyond the island since the first visit by Europeans in 1722 due to its intriguing statues and complex history Inventing Easter Island examines narrative strategies and visual conventions in the discursive construction of Easter Island as distinct from the native conception of Rapa Nui It looks at the geographic imaginary that pervaded the eighteenth century a period of overwhelming imperial expansion Beverley Haun begins with a discussion of forces that shaped the European version of island culture and goes on to consider the representation of that culture in the form of explorer texts and illustrations as well as more recent texts and images in comic books and kitsch from off the island Throughout Easter Island is used as a case study of the impact of imperialism on the view of a culture from outside The study hinges on three key points an inquiry into the formation of Easter Island as a subject an examination of how the constructed space and culture have been shaped

reshaped and represented in discursive spaces and a discussion of cultural memory and how the constraints of foreign texts and images have shaped thought and action about Easter Island Richly illustrated and unique in its findings Inventing Easter Island will appeal to cultural theorists anthropologists educators and anyone interested in the history of the South Pacific
