Caroline and Papa Ronald B. Schram, 2008-11 I had the career of a lifetime I was a teacher I began my teaching career believing that one person could make a difference and throughout the years I never lost sight of that conviction Teaching connected me to my students in ways quite humorous as well as heart breaking I hope the reader laughs a lot and cries only a little while walking in my footsteps as an educator Laugh with me as you read about Fred the crusty cockroach we set free to find his wife and eighty seven children In addition there is always my favorite story about the scary monster under the bed holding a student's homework hostage I fed a rooster and his hens bread crumbs for breakfast each morning until they tried to follow me in single file into the school board building one day Some difficult students in summer school mistakenly believed my black patent leather belt to be a black belt in Karate Who was I to tell them differently Coming right on top of the laughs were the times I went home to cry I remember the student new to our school who went home one evening and hung himself his cries for help coming too late I remember with equal sadness the foster child we sponsored in Kenya who died because help did not reach him in time Closer to home was the

overage student who was shot and killed while he participated in a home invasion just days after he finished summer school Outside factors reached inside our classroom as well reeking havoc with the emotions of both the children and me The disastrous space shuttle with the teacher on board happened before our very eyes while the greatest tragedy of all was the destruction of the twin towers on 9 11 These stories and many more comprise my educational career and although there was no easy button I would do it all over again I was a teacher The Best Northeastern Colleges Princeton Review,2009-08-04 This comprehensive guide to 222 select colleges in the northeastern and mid Atlantic regions gives you a thorough look at life at each of the schools There is no better way to learn about a college than by talking to its students so we asked thousands of them to speak out about their schools Complete with student opinion narratives ratings and tips for applying this compact resource also reveals information on Quality of life Academic load Admissions selectivity Financial aid process Accessibility to Professors Social scene and extracurriculars The Best Northeastern Colleges covers Connecticut Delaware District of Columbia Maine Maryland Massachusetts New Hampshire New Jersey New York Pennsylvania Rhode Island and Vermont Often provocative sometimes hilarious and always telling the students opinions contained in this book will give you rare insight into each college **The Best 371 Colleges** Princeton Review (Firm),2009-07-28 Selects 371 of the best schools based on student feedback and provides information on tuition financial aid housing admission requirements and other statistics Making, Keeping, and Losing Friends Janice M. McCabe,2025-10-21 Draws attention to the importance of support networks for students as they make keep and lose friends throughout college and beyond We re all familiar with the sentiment that college is the best time of your life Along with a newfound sense of freedom students have a unique opportunity to forge lifelong friendships at a point in life when friendship is particularly important Why is it then that so many college students are falling victim to what the US Surgeon General termed an epidemic of loneliness and isolation How do different aspects of college life help or hinder students ability to form deep connections In Making Keeping and Losing Friends How Campuses Shape College Students Networks sociologist Janice M McCabe shows that the way a college is structured whether students live in dorms or commute study abroad or stay close to campus have plentiful common areas for clubs to meet or not can either encourage or hinder the making of meaningful friendships Based on interviews with 95 students on three distinct campuses a small private college Dartmouth College a large public university University of New Hampshire and a non residential community college Manchester Community College McCabe captures a wide range of experiences and discovers how features of the campuses make it easier or harder for students to make and keep friends She shows how and why across all three institutions some students thrive in deep and lasting friendships with their peers As McCabe s research reveals we need to look at the structures of students networks the institutions they attend and the importance of their identities in these places if we are to truly uncover and address the loneliness epidemic facing today s young adults **Rutherford's Vascular Surgery E-Book** Jack L. Uncommon People I Have Known Frank P. Sherwood, 2013-09-04 The title and subtitle say a great deal about the character of this book These are stories about people who inevitably stand out in a crowd for their personal attributes their ethical standards the ways in which they have coped with great problems and their remarkable achievements Significantly fourteen of the sixteen stories in this book are about people who have in some way contributed to better government Several have worked directly in government others have been teachers and still others have found ways to make contributions Not all the stories are about people in the U S The two stories from Brazil

involve people who stayed at home and did their good work there in the other two instances already blossoming careers at home were ended by extreme governmental changes In all cases however these are people who must be admired for their extreme dedication to the highest ideals of service In effect this book can be considered a primer on government that works The two whose stories did not directly concern government contributed mightily to a better society One was a highly productive author who in later years concentrated on children s books and wrote more than 50 of them The other pioneered a wholly different journalistic undertaking the city regional magazine Today these publications are found throughout the country and are distinguished by their design quality and their commitment to the communities they serve *Crossing Customs* Jay Davis, Andrew Garrod, 2013-09-13 In this collection of essays 13 foreign exchange students write their compelling stories detailing their experiences studying at Dartmouth College They not only convey their own joys and sorrows but illuminate U S culture from a perspective not seen by many American students or citizens
