Northrop Frye's Late Notebooks, 1982-1990 Northrop Frye, 2000-01-01 An inveterate notebook keeper Northrop Frye continually jotted down his ideas and thoughts as he worked through the complex schemes of his criticism Volumes 5 and 6 of the Collected Works are the notebooks that he kept while writing his two final books Words with Power and The Double Vision They provide a record of what he was reading and thinking as he struggled with the implications of those projects In a sense they are the workshops out of which the books were constructed While focusing on the works in progress the 3684 entries presented here range over diverse territory never failing to surprise delight and provoke In these notebooks for instance we find comments triggered by a detective story Frye is reading a lecture he has to prepare a glance at the books on his shelves a quotation he remembers a letter received or the memory of a trip In many respects the notebooks reveal a Frye who is quite different from the critic who made his reputation with Fearful Symmetry and Anatomy of Criticism displaying aspects of his personality and thought that are not apparent in his books and essays The notebooks show us the unbuttoned Frye a complex man capable of both spiritual transcendence and hard headed pragmatism Here for instance his criticism of Catholicism is far more acerbic than in anything he published Likewise his rejection of both Marxist and feminist ideology is far more pointed than elsewhere These two volumes include seven of Frye's handwritten notebooks and five collections of his typed notebooks all previously unpublished The material is the record of an extraordinary intellectual odyssey an odyssey that is at its base deeply spiritual

The Death of the Book John Lurz, 2016-07-01 An examination of the ways major novels by Marcel Proust James Joyce and Virginia Woolf draw attention to their embodiment in the object of the book *The Death of the Book* considers how bookish format plays a role in some of the twentieth century s most famous literary experiments Tracking the passing of time in which reading unfolds these novels position the book s so called death in terms that refer as much to a simple description of its future vis vis other media forms as to the sense of finitude these books share with and transmit to their readers As he interrogates the affective physical and temporal valences of literature s own traditional format and mode of access John Lurz shows how these novels stage intersections with the phenomenal world of their readers and develop a conception of literary experience not accounted for by either rigorously historicist or traditionally formalist accounts of the modernist period Bringing together issues of media and mediation book history and modernist aesthetics *The Death of the Book* offers a new and deeper understanding of the way we read now

After the Death of God Espen

Hammer,2025-03-22 A fresh history of nineteenth century philosophy s many ideas about secularization The secularization thesis which held that religious belief would gradually yield to rationality has been thoroughly debunked What then can we learn from philosophers for whom the death of God seemed so imminent In this book Espen Hammer offers a sweeping analysis of secularization in nineteenth century German philosophy arguing that the persistence of religion rather than its absence animated this tradition Hammer shows that Kant Hegel Feuerbach Marx and Nietzsche each in their own way sought to preserve and transform religion s ethical and communal aspirations for modern life A renewed appreciation for this tradition s generous thought Hammer argues can help us chart a path through needlessly destructive conflicts between secularists and fundamentalists today

Writing and Victorianism J.B. Bullen, 2014-06-06. Writing and Victorianism asks the fundamental question: what is Victorianism? and offers a number of answers taken from methods and approaches which have been developed over the last ten years. This collection of essays, written by both new and established scholars from Britain and the U.S.A., develops many of the themes of nineteenth-century studies which have lately come to the fore, touching upon issues such as class, power, and gender. Some essays reflect the interaction of word and image in the nineteenth century and the notion of the city as spectacle; others look at Victorian science, finding a connection between writing and the growth of psychology and psychiatry on the one hand, and with the power of scientific materialism on the other. As well as key figures such as Dickens, Tennyson, and Wilde, a host of new names are introduced, including working-class writers attempting to define themselves and writers in the periodical press who once anonymously exercised a great influence over Victorian politics, taste, and social ideals. From these observations, there emerges a need for self-definition in Victorian writing. History, ancestry, and the past all play their part in figuring the present in the nineteenth century, and many of these studies foreground the problem of literary, social, and psychological identity.

We Heal from Memory C. Steele, 2016-04-30. Through an examination of the poetry of Anne Sexton, Audre Lorde, and Gloria Anzaldá, *We Heal from Memory* paints a vivid picture of how our culture carries a history of traumatic violence: child sexual abuse, the ownership and enforcement of women's sexuality under slavery, the transmission of violence through generations, and the destruction of non-white cultures and their histories through colonization. According to Cassie Premo Steele, the poetry of Sexton, Lorde, and Anzaldá allows us to witness and to heal from such disparate traumatic events.

American Secrets José Liste-Noya, Eduardo Barros-Grela, 2011-09-16. Predicated upon the principles of political freedom, cultural openness, religious tolerance, individual self-reliance, and ethnic diversity, the United States of America has been tempted recurrently by the lures of the secret. *American Secrets* explores this political, historical, and cultural phenomenon from many, often surprisingly overlapping, angles. In these analyses of the literary and cultural uses and abuses of secrecy within a democratic culture, through analyses of diverse literary works and cultural manifestations, from Mark Twain's anti-imperialist prophecies to 9/11 conspiracy theories, from the traumas of the Vietnam War to the homophobia of the American military establishment, from the unresolved dilemmas of nuclear politics to the secret ecologies shunted aside by the exploitation of the environment, from the questionings of national identity on the ethnic and transsexual margins to the confessional modes of poetry and the poetics of the unspeakable and unrepresentable, these essays reveal the politics within the poetics and indissociably the poetics fueling the politics of secrecy in its ambivalent deployment. Secrecy often seems to be a question without an answer, or an answer that either seems to beg the question or to be a question itself. These

essays address this paradox with their own questioning explorations In answering such questions the volume as a whole provides an illuminating overview of the pervasiveness of the secret and its modalities in American culture while also dealing specifically with the poetics of the secret in its various historically recurrent literary manifestations
