The Left, the Right and the Jews W.D. Rubinstein, 2015-10-16 First published in 1982 this book examines anti semitism in the Western world The author concludes that fringe neo Nazi groups notwithstanding significant anti semitism is largely a left wing rather than a right wing phenomenon He finds that Jews have reacted to this change in their situation and in attitudes towards them by making a shift to the right in most Western countries with the major exception of the United States Considering the contribution of Jews to socialist thought from Marx onwards and the equally lengthy history of right wing anti semitism this shift is one of the most significant in Jewish history This movement to the right is discussed in separate chapters as is Soviet anti semitism and the status of the State of Israel Examined in depth are the implications of this shift in attitude for Jewish philosophy and self identity

Faith in the Millennium Stanley E. Porter, Michael A. Hayes, David Tombs, 2001-02-01 At the close of one millennium and the beginning of a new one this conference volume reflects on the past and looks forward to a new era in terms of the development of faith Although most of the papers in the volume address issues concerning Christian faith the volume is not confined to such a perspective since the concept of faith is treated here in an encompassing and broad manner The historical perspective reaches back several millennia addresses contemporary issues of economics and justice as they have a bearing on faith and looks to the future as a new millennium presents its own problems and potential opportunities
